ROWAN

Felted Tweed

Spun in a light DK weight, with a beautiful tweed effect, it's a Fair Isle knitter's dream. But that's not all. The magical combination of lightly-felted wool, viscose & alpaca makes it supremely blockable and a gorgeous option for lacework as a result. Or knit it in garter stitch for a drapery, squishable fabric that is cosy, but light and easy to wear.

20% NZ Brushtail Possum combined with 80% 18 micron fine Merino gives this yarn a superbly soft handle and noticeable 'loft' as the possum fibres come to the surface of the knitted fabric. This creates the exclusive and luxurious warmth only achievable with possum, nature's best insulator. With these fine fibres it is possible to achieve excellent yarn length for weight with 140m on a 40g ball. The natural light and dark shades of Possum fibres create a melange effect when blended and dyed with Merino, the length on the ball means less weight and cost per garment. We have been in the yarn business for 46 years, this the most satisfying yarn we've brought to market. Enjoyment for the wearer and crafter both.

Interchangeable Needle Tips and Cables

Interchangeable Knitting Needles are made up of a pair of needle tips joined by a flexible cable which unlike fixed circulars can be changed to accommodate the width of a project. Symfonie interchangeable circular needles are available in 2 needle lengths with a variety of no-kink cable lengths for a wide range of knitting projects, from small to large.

A smooth join ensures easy stitch glide and no snagging. Resilient, flexible cables lay flat with no kink or twist, easy to store.

Strong yet flexible, our cables have long threaded screws to guarantee a snug fit when joined with needle tips. These also come with end caps that allow you to use cables as stitch holders, when needed.
