**DRIVEN BY PASSION,
FORMULATED WITH INGENUITY,
MANUFACTURED WITH INTEGRITY!**

AT SAN NUTRITION, WE'RE NOT JUST ANOTHER SUPPLEMENT COMPANY...

WE'RE COMMITTED TO YOUR SUCCESS.

Since 1996, we've been empowering athletes to reach their peak performance, whether it's increasing muscle mass, shedding body fat, or simply boosting athletic prowess. Our reputation for excellence is well-earned, as we continuously push the boundaries of quality and innovation in every product we offer.

With a focus on extensive scientific research and practical application field studies, we're dedicated to developing the safest and most effective supplements on the market. But we're not stopping there - our journey is driven by a passion for helping you achieve your fitness goals. From our customer care department to our product development team, we're here to support you every step of the way. Trust in SAN Nutrition to deliver real results and join the countless athletes worldwide who have made us their go-to choice for superior supplements.

**“AT SAN, THE CUSTOMER IS OUR
INSPIRATION, QUALITY IS OUR WORK
AND VALUE IS OUR ULTIMATE GOAL.”**

TIGHT! XTREME® RELOADED

GET ULTRA-RIPPED QUICKLY & FEEL GOOD

- STIMULATES MAXIMUM FAT BURNING*
- AMPLIFIES ENERGY FOR INCREASED POWER & ENDURANCE*
- ENHANCES MOOD-ELEVATING PROPERTIES*
- BOOSTS OVERALL METABOLIC RATE*
- THE FIRST & ONLY FAT BURNING MATRIX*

REACHING YOUR FAT-BURNING WALL ISN'T NECESSARILY THE END

In order to graduate from lean to ripped, it requires more than just typical fat-burning measures. You have to be 100% focused on your goals at all times, and your nutrition and training have to be completely dialed in. Even then, there are days when your energy is down, determination is lacking, or you simply can't seem to dig any deeper into your fat stores to get leaner. That's when you need to go XTREME. . .

THE IDEAL FUSION OF INGREDIENTS TO CREATE THE PERFECT FAT BURNER

Caffeine is a potent thermogenic agent which is proven to mobilize fat as an energy source, and it has the ability to increase focus and enhance power output. This can help immensely with keeping motivation levels high when fatigue sets in, and that's why TIGHT! XTREME® RELOADED has 250 mg of caffeine in two Hot Caps.*

While caffeine plays a key role in the effectiveness of TIGHT! XTREME® RELOADED, it's only one element of the Evapor8™ Total Body Fat Assault Matrix. The combination of other ingredients work as thermogenic metabolic regulators that promote fat burning and heightened mood. Yohimbine helps to increase blood flow and adds to the mood-elevating factors of TIGHT! XTREME® RELOADED.*

When you need to maintain the highest levels of focus and drive to power through the hardest workouts and shed every ounce of fat from your body, TIGHT! XTREME® RELOADED is the undeniable choice.*

ALCAR™

HIGH QUALITY GRADE ACETYL-L-CARNITINE

IMPROVES ENERGY & ENDURANCE IN PHYSICAL PERFORMANCE*

ASSISTS IN THE TRANSPORT OF FAT INTO THE MITOCHONDRIA WHERE IT IS OXIDIZED & CONVERTED INTO ATP (CHEMICAL ENERGY FOR THE CELL)*

SURPASSES ORDINARY L-CARNITINE*

Supplement Facts

Serving Size: 1 Tablet

Servings Per Container: 100

Amount Per Serving

N-Acetyl-L-Carnitine HCl	750 mg**
--------------------------	----------

** Daily Value not established.

BOOST YOUR CELLULAR ENERGY PRODUCTION

SAN's ALCAR™ (Acetyl L-Carnitine) is a modified amino acid that supports cellular energy production by assisting in the transport of fat into the mitochondria where it is converted into ATP (chemical energy for the cell).*

Acetyl L-Carnitine is a highly bioavailable form of L-Carnitine which helps to maintain healthy cellular energy metabolism and supports brain function.*

Acetyl L-Carnitine assists the transport of fat into the mitochondria, where it is oxidized and converted to ATP.*

LIPOREDUX™

BURN MORE FAT FROM THE OUTSIDE!

TOPICAL FAT BURNER

USE DIRECTLY ON PROBLEM AREAS

SUPPORTS OVERALL FAT LOSS*

EASY APPLICATION WITH A PLEASANT FRAGRANCE & NO MESS

DIRECTIONS: Thoroughly apply 10-12 pumps of LIPOREDUX gel onto dry, clean skin twice daily where fat loss is desired. Start with 10 pumps and increase depending on desired surface area such as abdominals, glutes and/or thighs. Under no circumstance exceed 30 pumps per 24 hour period. Not for use by persons under the age of 18. Store in a cool dry place.

INGREDIENTS: Water, Alcohol Denat., Propylene Glycol, Caffeine, Raspberry Ketones, Acrylates / C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Glycyrrhetic Acid, Ergothioneine, Coleus Forskohlii Root Extract (95% Forskolin by HPLC), Corynanthe Yohimbe Bark Extract, Menthol, Camphor, Xanthan Gum

WHEN THAT FINAL LAYER JUST WON'T COME OFF

Fat loss takes time, and it can be a frustrating process if you don't see the fat disappearing from your trouble spots. That's because exercise and proper nutrition burn fat from everywhere, which means that the places you hold the most unwanted fat are usually the last to shrink down. It would be a dream come true if you could apply a fat burner directly to your problem areas...

PRECISION INGREDIENTS IN A TOPICAL FORMULA

It used to be that you would reach a level of leanness and then have to accept that you were at your best, despite a final thin layer of subcutaneous fat in certain areas. LIPOREDUX™ may be the solution you've been looking for. This advanced, topically-applied, no-mess formula is easy to apply anywhere, and it happens to smell great, so it's perfect for before or after workouts or any time.*

By applying LIPOREDUX™ directly to your skin, the 6-phase precision formula gets right to work. And because it's a topical solution, there are no stimulant effects or other negative effects to worry about. The remarkable combination of ingredients in LIPOREDUX™ have been shown to improve insulin sensitivity, norepinephrine release, and cAMP for increased fat oxidation. You can reach your goals of looking and feeling great.*

The beta-3 agonist in LIPOREDUX™ are known to help release fat directly from brown adipose tissue so it can be burned as energy and thus support the reduction of the fat cell nucleus size. In order to truly rid problem areas of unwanted excess weight, a strong aquaretic can help assure the final details are etched into perfection. These potential effects can result in a trimmer physique.*

If you have stubborn body fat, use LIPOREDUX™ combined with proper nutrition and exercise to eradicate the last layer from everywhere.*

T3™

LOSE FAT WITHOUT STIMULANTS

99.9% PURE GUGGULSTERONES

NATURALLY AMPLIFY METABOLIC RATE*

SUPPORT BENEFICIAL THYROID PRODUCTION*

COAX STIMULANT FREE FAT LOSS*

PREVENTING YOUR EFFORTS FROM WORKING AGAINST YOU

Achieving successful fat loss can be challenging, especially when your metabolic rate isn't optimized. Factors like reduced T3 production, a crucial thyroid hormone for fat burning, can impede your progress. Overtraining and nutrient-deficient diets can negatively impact thyroid hormone levels, leading to a slower metabolism and fatigue. While chemical solutions exist, they carry risks and can disrupt your body's natural hormone production.

At SAN, we understand these struggles, which is why we've developed a natural solution to support and enhance your body's systems without compromising its function. Introducing T3, a stimulant-free formula consisting of 99.9% pure guggulsterones standardized for 55% Z and 45% E isomers. This potent blend ensures optimal potency and effectiveness.

The specific isomers found in T3 are responsible for its ability to naturally support fat loss without causing jitters or shakes. With T3, you can elevate your fat-burning efforts to the next level while avoiding stimulation of your nervous system.

Don't let your efforts work against you. Choose T3 as your ideal solution to naturally increase your body's fat-burning abilities.*

LAUNCH® 4350 RELOADED

FUEL THE DRIVE!

- PROMOTES EXPLOSIVE ENERGY*
- SUPPORTS REPAIR, RECOVERY & MUSCLE GROWTH*
- BETTER REPS & STRENGTH GAINS*
- POWERFULLY STRONG PRE-WORKOUT FORMULA*

POWERFUL PRE-WORKOUT FORMULA EXPLICITLY DESIGNED FOR IMPROVED PERFORMANCE & ENDURANCE

LAUNCH® 4350 RELOADED is an ultra-concentrated, strong pre-workout formula that packs a full 4,350 mg of psychoactive ingredients designed to give you better workouts and improved performance. LAUNCH® 4350 RELOADED was specifically formulated to strengthen workout intensity, increase mind-muscle connection and generate explosive drive! It amplifies the muscle building, fat destroying effects of your workouts. LAUNCH® 4350 RELOADED was created for the truly driven muscle-hungry athlete like you!*

ULTRA-CONCENTRATED – EXCEPTIONAL FLAVOR

LAUNCH® 4350 RELOADED is ultra concentrated with 4,350 mg of psychoactive ingredients per serving. Remember this; it's packed with more HPLC & FTIR tested, active raw materials than any other pre-workout formula. And one more important thing... the taste is simply exceptional!*

Supplement Facts

AAKG™

NITRIC OXIDE PRECURSOR

HELPS INCREASE MUSCLE BUILDING (PROTEIN SYNTHESIS)*

HELPS DECREASE MUSCLE BREAKDOWN (PROTEIN CATABOLISM)*

SUPPORTS INSULIN SECRETION, ASSISTING THE UPTAKE OF AMINO ACIDS & GLUCOSE INTO THE MUSCLE CELLS*

Supplement Facts

Serving Size: 1 Tablet

Servings Per Container: 120

Amount Per Serving		% DV
Calcium (as dicalcium phosphate)	56 mg	4%
L-Arginine Alpha-Ketoglutarate	1 g	†

† Daily Value not established.

INCREASE PROTEIN SYNTHESIS – DECREASE CATABOLISM

AAKG™ consists of 2 Arginine molecules bonded to 1 Alpha-Ketoglutarate molecule in a perfect 2:1 ratio and acts as a Nitric Oxide Booster. Research has shown that supplementation of AAKG™ assists with increased protein synthesis, helps to decrease protein catabolism & supports insulin secretion, thus assisting the uptake of amino acids and glucose into the muscle cells.*

ARGININE SUPREME™

**INCREASE MUSCLE MASS —
SHORTEN RECOVERY TIME***

SUPPORTS BLOOD FLOW TO WORKING MUSCLES*

HELPS AMP UP YOUR WORKOUTS*

SUPPORTS ENDURANCE*

SUPPORTS NUTRIENT DELIVERY*

SPEEDS MUSCLE RECOVERY AFTER EXERCISE*

Supplement Facts

Serving Size: 1 Tablet

Servings Per Container: 100

Amount Per Serving

L-Arginine (as L-Arginine HCl)	800 mg**
--------------------------------	----------

** Daily Value not established.

ARGININE SUPREME'S ANABOLIC POTENTIAL MAKES IT A MUST FOR ALL ATHLETES

SAN's ARGININE SUPREME™ contains 800 mg of arginine per tablet. Research has shown that supplementation of arginine (such as the form used in ARGININE SUPREME™) assists with increased protein synthesis, helps to decrease protein catabolism (muscle loss) and supports healthy insulin maintenance, thus assisting with the uptake of amino acids and glucose into the muscle cells.*

MICRONIZED TO 200 MESH

CREATINE / CELL VOLUMIZER

PERFORMANCE CREATINE™

INCREASE STRENGTH & MUSCLE VOLUME

5 GRAMS OF CREATINE MONOHYDRATE PER SERVING

MICRONIZED FOR QUICK & COMPLETE ABSORPTION*

FAST MIXING & NO WASTED RESIDUE

INCREASES MUSCLE STRENGTH & SIZE*

MUSCLE ISN'T BUILT WITH PROTEIN ALONE

Combining proper nutrition and hard training are the keys to developing a healthy and athletic body, and supplementing with high-quality proteins is one effective way to help build upon that foundation. When it comes to breaking beyond the realm of average, however, there is one major research-backed supplement that has helped increase strength and muscle volume more than any in recent years...

ADVANCED MICRONIZING TECHNOLOGY MAKES CREATINE MORE EFFECTIVE

Creatine monohydrate is one of the most researched and validated strength- and muscle-building nutritional supplements on the market, and it's with good reason. It's been proven to help restore adenosine triphosphate, or ATP, which is the predominant source of cellular energy, and it also helps add volume to muscle cell structures. That translates to increased strength during intense workouts and more muscle gains.

In order to completely maximize its benefits, however, creatine monohydrate should be fully dissolved in solution before ingestion. That's why PERFORMANCE CREATINE™ harnesses the power of CreaSolv brand micronizing technology. With 20 times more surface area than non-micronized creatine, PERFORMANCE CREATINE™ mixes quickly and completely. You can make use of every gram of creatine without any of the discomfort reported from less advanced varieties. PERFORMANCE CREATINE™ increases muscle power and size beyond the limits of non-micronized creatine monohydrate.*

AVAILABLE IN 300 G, 600 G & 1,200 G SIZES

Supplement Facts

Serving Size: 1 Teaspoon (5 g)

Servings Per Container: 60

Amount Per Serving

Creatine Monohydrate (micronized) 5 g**

** Daily Value not established.

20x MORE SURFACE AREA THAN NON-MICRONIZED CREATINE

CYCLING DIRECTIONS: Creatine works best with a 'Loading Phase' followed by a 'Maintenance Phase'. A typical creatine cycle consists of three parts. Take 20-30 g daily (depending on bodyweight) for 5-7 days (Loading Phase) then take 5-7.5 g daily (depending on bodyweight) for 3-4 weeks (Maintenance Phase). Take 1 or 2 weeks off creatine and repeat entire cycle (Wash-Out).

	DAY TIME	UNDER 200 LBS		OVER 200 LBS	
		LOADING PHASE	MAINTENANCE PHASE	LOADING PHASE	MAINTENANCE PHASE
TRAINING DAYS	MORNING	1	1	1 ½	1 ½
	PRE WORKOUT	1		1 ½	
	POST WORKOUT	1		1 ½	
	NIGHT	1		1 ½	
NON-TRAINING DAYS	MORNING	1	1	1 ½	1 ½
	LUNCH	1		1 ½	
	DINNER	1		1 ½	
	NIGHT	1		1 ½	
DURATION		5-7 DAYS	3-4 WEEKS	5-7 DAYS	3-4 WEEKS

* These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

PH-MODIFIED CREATINE®

MUSCLE STRENGTH & SIZE WITH MORE EFFICIENCY*

800 MG CAPSULE AS EFFECTIVE AS 5,000 MG OF POWDER*

NO LOADING PHASE NEEDED

COMPLETE ABSORPTION

BUILD STRENGTH & MUSCLE*

CREATINE DOESN'T HAVE TO BE INEFFICIENT OR UNCOMFORTABLE

When creatine monohydrate first hit the fitness scene, people were beyond excited. The promises of increased strength and muscle gains were hard to ignore. It was soon realized, however, that the loading phase was cumbersome, and many people suffered from stomach discomfort due to the large amounts ingested.

BIOENGINEERED CREATINE OFFERS YOU MORE WITH LESS

The effectiveness of creatine monohydrate has evolved to a new level with the advent of the bioengineered CreaSolve brand utilized in PH-MODIFIED CREATINE®.*

The PH-modified nature of PH-MODIFIED CREATINE® makes it resistant to degradation from stomach acids, so its full potency is transported directly into muscle tissue where it promotes greater strength and increased muscle size. The effectiveness of PH-MODIFIED CREATINE® is so high that it requires just 1/7 the dosage of other creatine products. That means just one capsule is as effective as a full teaspoon of powdered creatine monohydrate.*

PH-MODIFIED CREATINE® offers all of the well-known strength and muscle gains of creatine monohydrate with none of the hassle.*

BCAA BOOSTED™

FORMULATED FOR FASTED CARDIO

ZER CARBS! ZERO CALORIES!

RESEARCH-PROVEN MUSCLE PRESERVATION COMPOUNDS - BCAA'S & GLUTAMINE*

PH BUFFERING & ENDURANCE ENHANCING B-ALANINE*

ELEVATED ENERGY & AMPLIFIED FAT BURNING VIA OUR CUSTOM FAT INCINERATING MATRIX*

INCREASED CELLULAR HYDRATION & ANTI-FATIGUE MATRIX*

FREAKISH FAT LOSS!

Fasted cardio is one of the most demanding activities for hardcore athletes and fitness enthusiasts. Hunger pangs and low energy force you to push boundaries in order to dominate. BCAA BOOSTED™ is SAN Nutrition's ultimate muscle-defense, energy-boosting, and fat-melting solution. Performing fasted cardio first thing in the morning on an empty stomach allows you to dive right into the highest fat-burning potential, and BCAA BOOSTED™ gives you the motivation, discipline, and focus needed to get the job done every time you hit the gym.* BCAA BOOSTED™ provides a zero-calorie Natural Energy Matrix that gives you the drive you need to push through those grueling, early-morning fasted-cardio sessions, and it is also fortified with thermogenic compounds that ramp up the fat-burning effects. The B-Alanine in BCAA BOOSTED™ is a proven lactic acid buffer and overall great ergogenic – allowing you to be pain-free each and every session.* Hydration is crucial to all systems in your body. The advanced electrolyte complex in BCAA BOOSTED™ ensures that you're completely hydrated during your rigorous fasted-cardio sessions. Proper hydration is key to recovery, muscle energy, and the transportation of nutrients through your system (e.g. BCAAs, Glutamine, and B-Alanine) and into the muscle cells where they are needed most.*

FASTED CARDIO ALLOWS YOU TO "BE HUNGRY"

Fasted cardio demands a "Be Hungry" attitude, and BCAA BOOSTED™ delivers the extreme drive and guaranteed muscle preservation that gives you the confidence to stay disciplined and focused. SAN Nutrition shatters all previous barriers and guarantees dramatic results with BCAA BOOSTED™.*

EAA+ HYDRO SUPERCHARGED

THE ULTIMATE & MOST COMPLETE AMINO ACID HYDRATION FORMULA

9 GRAMS OF EAAs (ESSENTIAL AMINO ACIDS) PER SCOOP
 ADVANCED HYDRATION FORMULA SPECIFICALLY FORMULATED FOR INTRA-WORKOUT SESSIONS*

FORTIFIED WITH ESSENTIAL VITAMINS AND MINERALS*

VITAL ELECTROLYTES KEEP YOU FIRING ON ALL CYLINDERS THROUGHOUT YOUR MOST INTENSE WORKOUTS*

THE COMPLETE FUEL & HYDRATION YOUR BODY NEEDS

Elevate your muscle performance with EAA+ HYDRO Supercharged, the ultimate powerhouse for your fitness journey. Crafted to perfection, this super fuel combines the potency of Essential Amino Acids (EAAs) with vital electrolytes, ensuring your muscles are primed for peak performance.

Unlock your true potential with EAA+ HYDRO Supercharged. Its unique blend of EAAs aids in muscle repair and growth, while the replenishing electrolytes keep your muscles firing on all cylinders, even in the most demanding workouts.

Whether you're pushing your limits in the gym or conquering the open road, EAA+ HYDRO Supercharged is your go-to companion. Harnessing the natural goodness of targeted minerals, this formula guarantees rapid rehydration and recovery, allowing you to bounce back stronger and faster than ever.

Don't settle for ordinary sports drinks. Choose EAA+ HYDRO Supercharged for unparalleled support in enhancing muscle performance, strength, and endurance. Perfect for athletes of all disciplines, from cyclists and runners to CrossFit enthusiasts and swimmers, the hydration you get from EAA+ HYDRO Supercharged ensures you stay at the top of your game, every step of the way.*

BCAA PRO 5000™

BCAA 2:1:1 MUSCLE-BUILDING RECOVERY COCKTAIL DESIGNED FOR ATHLETES

- SUPPORTS WORKOUT CAPACITY*
- GREATER ABSORPTION & UTILIZATION*
- SUPPORTS PROTEIN SYNTHESIS*
- BCAA 2:1:1 RATIO PROFILE
- CONTAINS B-ALANINE

QUICK, CONVENIENT & TIMELY

Athletes are no strangers to hard work. They're well-schooled on the value of intense training coupled with sound sports nutrition for building lean muscle tissue. The capacity to perform intense workouts and recover quickly is critical for strength training and recovery.* Athletes know that solid food can be inconvenient in a gym setting. The slow digestive process misses the important post-workout window to replenish the muscle cells hunger for amino acids.*

SAN answered this call for maximum absorption and recovery with BCAA PRO 5000™.*

SOLID INGREDIENTS FOR HUNGRY MUSCLE CELLS

A specific ratio of BCAAs are scientifically documented to ensure protein synthesis and anti-catabolic qualities. That's why BCAA PRO 5000™ was designed with a precise 2:1:1 ratio of Branched-Chain Amino Acids (BCAAs). Vitamin B6 was added to assist maximum absorption and utilization of the amino acids following an intense strength training session.*

The goal of BCAA-PRO 5000™ is to help you build muscle and support recovery following intense training. As always, the intensity of the workout is a critical component for building muscle.*

BCAA-PRO 5000™ is one of the only products available to offer BCAAs plus Beta Alanine, a direct precursor to b-Alanine, which is extremely effective in buffering hydrogen ions that are commonly elevated during intense training. BCAA-PRO 5000™ helps reduce acidity in the muscle during times of stress such as an intense training session.*

BCAA-PRO 5000™ is an extremely absorbable, precisely formulated BCAA formula with added b-Alanine and Vitamin B6 to support maximum amino acid absorption and workout capacity needed for muscle growth.*

AVAILABLE IN 50 SERV. & 100 SERV. SIZES

BCAA PRO RELOADED™

**12:1:1 RATIO WATER SOLUBLE
BRANCH CHAINED AMINO ACIDS**

SPARES MUSCLE AFTER ENDURANCE TRAINING*

GREATER PROTEIN SYNTHESIS AFTER STRENGTH TRAINING*

12:1:1 RATIO OF L-LEUCINE, L-ISOLEUCINE & L-VALINE

**INCLUDES L-GLUTAMINE TO SUPPORT GREATER
PROTEIN SYNTHESIS***

HIGHLY WATER SOLUBLE, BETTER ABSORPTION*

ENGINEERED TO ENSURE THE HIGHEST LEVEL OF EFFECTIVENESS

Here's why: SAN's sports nutrition scientists have developed a highly absorbable form of BCAAs with a ratio of BCAAs that has 10x the potential for growth, repair and recovery.

SAN created an extremely water soluble form of instantized BCAAs (iBCAA Solv). In simple terms, more of the product is used by the human body.*

You're gonna love this... **BCAA PRO RELOADED** features hydro-soluble BCAA's that support greater absorption for the best biological advantage!

LEUCINE: ACTIVATES ANABOLISM – DEACTIVATES CATABOLISM

Leucine is the primary ingredient in BCAA PRO RELOADED™, and it's been proven to be the most anabolic of all essential amino acids directly controlling the activation of protein synthesis in the body. Studies show intense training breaks down muscle protein (Catabolism) which remains depleted until L-Leucine is replenished.

BCAA PRO RELOADED™ steps up with the highest dose of L-Leucine rich BCAAs powered by a 12: 1: 1 ratio of L-Leucine, Isoleucine, and Valine. In addition, BCAA PRO RELOADED™ also contains 2.5 g of L-Glutamine per serving, the most abundant amino acid in skeletal muscle tissue. Studies show that L-Glutamine can minimize muscle tissue breakdown, improve protein metabolism, positively affect the immune system, support the digestive tract, and nourishes muscle cells and more.

BCAA PRO RELOADED™ is available in delicious Watermelon, Blue Raspberry, Strawberry Kiwi and Berry Pomegranate. It's also free of aspartame, sugar, fat, and carbs!*

PICKING THE RIGHT TOOL FOR THE JOB DOESN'T HAVE TO BE HARD!

There's no doubt that choosing the right supplements for your fitness goals can be tough with all the nutritional advancements over the years – let alone all the hype behind some products that can sound too good to be true. In the case of muscle recovery and immunity, choosing a pure and powerful supplemental source of L-Glutamine, the most abundant amino acid found in skeletal muscle, is the straightforward answer.

L-GLUTAMINE 2000 BEFORE AND AFTER YOUR WORKOUTS

With a full 2 grams of L-glutamine per serving, L-GLUTAMINE 2000™ is ideal and easy to use before and after every workout or bout of serious physical activity. The GMP (good manufacturing practices) certified capsules allow you to keep this muscle insurance with you wherever you go.

As an athlete, you're concerned with much more than just how you look and how much muscle you have. You care about your performance and overall health, so L-GLUTAMINE 2000™ should be an integral part of your nutritional program. L-glutamine supports resilient intestinal health which is directly tied to having a strong immune system. Rather than being at risk of getting sick, you can see and feel results from your workouts while fighting off anything that may prevent you from pushing toward your goals.

L-GLUTAMINE 2000™ delivers the most important single amino acid in convenient full dosages for guaranteed results. Keep a bottle in your gym bag for the best and easiest pre- and post-workout protection available.*

PERFORMANCE GLUTAMINE™

PROTECT YOUR IMMUNE SYSTEM & MUSCULAR HEALTH

5 GRAMS OF HIGH QUALITY GRADE L-GLUTAMINE PER SERVING

PRESERVES MUSCLE TISSUE & PROMOTES RECOVERY**
SUPPORTS THE PRODUCTION OF 'YOUTHFUL HORMONES'***
IN THE BODY**

PROMOTES HEALTHY IMMUNE SYSTEM & INTESTINAL HEALTH**

PICKING INDIVIDUAL BUILDING BLOCKS BASED ON GOALS

In the quest for muscle size, most athletes strive for increased protein and amino acids, but many are aware that certain individual amino acids are highly beneficial. One particular amino acid is sought after more than any other for its countless athletic and conventional health benefits.

A SINGLE AMINO ACID CAN BE AS POWERFUL AS MANY

Glutamine is the most abundant amino acid in skeletal muscle tissue, and it is the predominant carrier of nitrogen into muscle cells. L-glutamine plays a vital role in preventing catabolism of muscle tissue, as well as improving protein synthesis, or muscle building.*

Beyond the muscle-building, catabolism-limiting and hormone supporting attributes, PERFORMANCE GLUTAMINE™ also plays a key role in boosting intestinal health and immune system function, both of which are vital for athletes and non-athletes alike.*

Each serving of PERFORMANCE GLUTAMINE™ contains 5 grams of pure Japanese pharmaceutical grade L-glutamine, so the HPLC tested and certified quality guarantees maximal results.*

PERFORMANCE GLUTAMINE™ promotes muscular growth and a healthy immune system.*

AVAILABLE IN 300 G, 600 G & 1,200 G SIZES

TITANIUM WHEY®

BUILD MORE MUSCLE & RECOVER MORE QUICKLY

23 GRAMS OF WHEY PROTEIN PER SERVING

PROMOTES MUSCLE BUILDING*

PREVENTS MUSCLE BREAKDOWN*

EASY TO DIGEST

MUSCLE DOESN'T GROW IN THE GYM

All the hard work you put in at the gym would be wasted without taking action to preserve the muscle you already have and to repair the damage done during your workouts. The gym is where you go to break muscle down, so it's imperative that you have the best protein formula available to preserve and build more muscle and strength.

THE BEST INGREDIENTS LEAD TO THE BEST RESULTS!

With 23 grams of fast-absorbing protein, less than 3.3 grams of carbohydrates, and 1.6 grams of fat per serving, TITANIUM WHEY® is engineered to be the best possible whey protein blend for maximum muscle growth.

1 SCOOP =

23 GRAMS

TITANIUM STANDARD WHEY PROTEIN

The quick digesting nature of TITANIUM WHEY® means rapid absorption into the bloodstream, and that makes it the ultimate choice for getting key anabolic and anti-catabolic nutrients into your system as fast as possible. Plus, the anabolic effect of our protein blend has long-lasting effects—up to 4 hours.*

TITANIUM ISOLATE SUPREME®

THE HIGHEST QUALITY WHEY PROTEIN AVAILABLE*

27 GRAMS OF HYDROLYZED ISOLATE PROTEIN PER SERVING

ZERO GRAMS OF FAT OR SUGAR *(depending on flavor)*

7 GRAMS OF BCAAs PER SERVING

LACTOSE FREE

PROTEIN CHOICES DON'T HAVE TO BE COMPLICATED

Looking at the sea of protein powder choices can be confusing. All are not created equal, and reading the labels of similar protein powders can be perplexing. Depending on your goals and the quality of ingredients, there are good choices, and there are great choices—and then there is the greatest choice...

THE HIGHEST QUALITY INGREDIENTS CREATE A SUPREME PRODUCT

Hydrolyzed whey protein isolate is a much more rapidly absorbed version of whey protein, which makes its high content of BCAAs available to your muscles almost immediately, enhancing growth and repair.*

ZINC MAGNESIUM ASPARTATE™

IMPROVE TISSUE REPAIR & POST-WORKOUT RECOVERY

- REDUCES RECOVER TIME*
- INCREASES MUSCLE TISSUE REPAIR*
- BOOSTS ENERGY & PERFORMANCE*
- MAINTAINS HEALTHY ELECTROLYTE

RECOVERY QUICKLY FROM INTENSE & GRUELING ACTIVITY

The ability to quickly recover from high-intensity and grueling activity is something that athletes from all sports are after. Reduced recovery time means increased performance, and that's the holy grail for all athletes.

ZINC MAGNESIUM ASPARTATE™ has a unique and well-known combination of key vitamins and minerals that can help to increase testosterone levels. Even more important than that is the ability of this synergistic blend to increase the rate at which you recover from intense activity, and it does so while you sleep, compounding your body's natural recuperative rhythms.*

The zinc in ZINC MAGNESIUM ASPARTATE™ plays a key role in cellular growth and tissue repair, so it helps to rebuild muscle after exercise-induced damage. The specific blend of magnesium is known for its essential role in ATP production, muscular contraction and the maintenance of proper electrolyte balance. This means it can increase energy production and strength while aiding in hydration, an important part of cellular expansion and growth. Vitamin B6 is the last part of this recovery trifecta, as it enhances the absorption of zinc and magnesium, providing maximized utilization.*

ZINC MAGNESIUM ASPARTATE™ is a synergistic combination of vitamins and minerals with a proven record of increasing performance, tissue repair and hormone production.*

ESTRODEX™

ADVANCED ESTROGEN MODULATING COMPLEX

SUPPORTS INCREASED LEVELS OF TESTOSTERONE*

COMBATS NEGATIVE SIDE EFFECTS OF ESTROGEN*

BLOCKS CONVERSION OF TESTOSTERONE TO ESTROGEN*

ANABOLIC HORMONE SUPPORT THAT BANISHES NEGATIVE EFFECTS

Elite athletes tend to have something in common besides just being deeply driven to succeed. They also have a healthy hormone profile which allows them to excel and to recover better than average athletes. For many, this occurs naturally due to their individual biology, athleticism and dietary programs, while others seek supplemental and pharmaceutical enhancement. Regardless of the method, testosterone is a key hormone that offers big advantages, but it can convert to estrogen, which can cause negative side effects when it becomes abundant.

ESTRODEX™ offers the best of both worlds with regards to hormonal support. It allows for increased testosterone levels while fighting the increased estrogen levels that are normally a result of heightened testosterone.*

The ingredients in ESTRODEX™ are combined for their true hormone-supporting synergy. Urtica dioica, or stinging nettle root, prevents testosterone from binding to SHBG (sex hormone-binding globulin), and that keeps more free testosterone in your blood stream, while calcium D-glucarate, Indole-3-Carbinol and the antioxidant Resveratrol help with anti-estrogen metabolizing effects.*

ESTRODEX™ allows athletes to maximize the powers of free testosterone while minimizing the negative side effects of estrogen.*

Supplement Facts

FREE-T™

BOOST HEALTHY LEVELS OF UNBOUND & FREE TESTOSTERONE NOW!

SUPPORT FREE & HEALTHY TESTOSTERONE LEVELS*

ACCELERATED POST-EXERCISE RECOVERY*

ENHANCED PROTEIN SYNTHESIS — MORE MUSCLE BELLY SIZE*

INCREASED STRENGTH & VIGOR*

HEALTHY & SUSTAINED SEXUAL VIGOR WITHOUT SIDE EFFECTS*

INCREASE FREE TESTOSTERONE FOR MORE MUSCLE, STRENGTH & STAMINA

It goes without saying that increased testosterone plays a huge role in athletic performance. More free testosterone circulating through your system results in increased strength, boosted endurance, quicker recovery, and enhanced muscle building – let alone the increased sex drive.

FREE-T™ is formulated with specific elements known to promote elevated levels of free testosterone naturally. D-Aspartic Acid, the main ingredient, is a proven T-boosting nutrient utilized for its extraordinary ability to increase testosterone-producing luteinizing hormone (LH) up to 118%.

The plant-derived Forskolin in FREE-T™ not only increases free testosterone by up to 33.77%, it also supports bone health, decreased body fat, and increased muscle mass. This means increased strength, more muscle, and better definition from an all-natural and potent plant source.

**D-ASPARTIC
ACID**

**COLEUS
FORSKOHLII**

**URTICA
DIOICA**

**INDOLE-3-
CARBINOL**

FREE-T™ delivers a potent testosterone-boosting formula without drawbacks, and it amplifies the performance-enhancing benefits of free testosterone by simultaneously keeping estrogen levels fully under control. Estrogen inhibitors Urtica Dioca, Indole-3-carbinol, and Calcium D-Glucarate work together to inhibit hormonal conversion and prevent the negative effects of estrogen.

FREE-T™ is an all-natural, potent, and safe way to significantly increase the benefits of heightened testosterone production.*

TESTO HARDCORE™

INCREASE TESTOSTERONE PRODUCTION NATURALLY

2 GRAMS OF TRIBULUS TERRESTRIS PER SERVING

STANDARDIZED TO 90% STEROIDAL SAPONINS

PROMOTES HEALTHY TESTOSTERONE LEVELS*

INCREASES ATHLETIC & SEXUAL PERFORMANCE*

THE QUEST FOR MAXIMUM TESTOSTERONE PRODUCTION

Testosterone is the key male hormone, so when your testosterone levels are up, so is everything else. From athletic performance to sexual prowess, testosterone has a long history as the hormone of dominance.

Assuring that your body keeps up with maximum testosterone production is the quest of all men, and it requires the right nutritional science...

TESTO HARDCORE DELIVERS NATURE'S HERBAL ANSWER TO INCREASED TESTOSTERONE

Steroidal saponins are naturally occurring elements in Tribulus Terrestris that act as a catalyst for the production of testosterone. That's why each serving of TESTO HARDCORE™ contains a full 2 grams of this wonder herb. Inferior formulas on the market are standardized to a paltry 45%, but TESTO HARDCORE™ delivers a minimum of 90% steroidal saponins, making it the only real choice for hardcore herbal testosterone potency.

TRIBULUS TERRESTRIS
90% SAPONINS (MINIMUM)

Along with the testosterone boosting effects of Tribulus Terrestris, TESTO HARDCORE™ is fortified with SAN's Zinc Magnesium Oxide Complex. In very recent clinical studies, zinc has been proven to boost testosterone levels naturally on top of the beneficial role it plays in cellular growth and tissue repair. This T-boosting complex also supplies vitamin B6 to help maximize absorption along with magnesium oxide for its essential roles in ATP production, muscular contraction, and maintenance of proper electrolyte balance.

TESTO HARDCORE™ is your potent herbal solution to reap all the athletic and intimate benefits of increased testosterone by magnifying your body's own hormone production safely and effectively.*

TRIBUVAR™ 1000

TRIBULUS POWER x 2

SUPPORTS HEALTHY TESTOSTERONE LEVELS*

PROMOTES FASTER POST-WORKOUT RECOVERY*

INCREASES PROTEIN SYNTHESIS FOR INCREASED MUSCLE MASS*

REINFORCES A HEALTHY LIBIDO*

NATURAL TESTOSTERONE SUPPORT FOR MUSCULAR GROWTH & FASTER RECOVERY

Testosterone is, without a doubt, the most coveted hormone for athletes involved in all sports. The reasons are numerous, but the most desirable attribute is increased protein synthesis as a result of allowing you to maintain a positive nitrogen balance. This means considerably quicker recovery from exercise, so you can work harder and recover more quickly for increased strength and muscle building.

TRIBUVAR™ 1000 contains 1,000 mg of tribulus terrestris extract per serving, standardized to 45% furostanol saponins. The active phytosterols, flavonoids and glycosides this provides can help maintain natural and healthy testosterone levels by increasing luteinizing hormone production, which regulates positive testosterone production.*

TRIBUVAR™ 1000 is so safe and effective that world renowned Soviet athletes have used it with great success, making it one of the most sought after wholesome testosterone boosters available - naturally-increased testosterone with no negative side effects.*

TRIBUVAR™ 1000 is an extremely safe and natural way to promote increased testosterone levels for peak performance.*

MASS EFFECT REVOLUTION™

ULTRA-PURE MUSCLE MASS GAINER

50 GRAMS OF PROTEIN PER SERVING

ONLY 9 GRAMS OF SUGAR PER SERVING

BALANCED ANABOLIC & ANTI-CATABOLIC PROTEIN

HIGH FIBROUS CARBOHYDRATES

CONTAINS WHEY, MILK & CASEIN PROTEIN

1,105 CALORIES PER SERVING

5 GRAMS OF CREATOLV BRAND CREATINE PER SERVING

GETTING ENOUGH MUSCLE-BUILDING CALORIES TAKES EFFORT

Building quality muscle requires quality calories, and it requires a lot of them—if you're striving to put on serious mass. A high-calorie diet can be easy if you're not worried about the quality of food you're eating, but keeping it healthy isn't so easy, and doing it without breaking the bank is almost impossible.

On top of the costs, there's also time and convenience to consider. Not everyone can carry around a cooler full of homemade meals, let alone the time it takes to warm everything up and force feed yourself on a time crunch.

BUILDING SOLID MUSCLE MASS WITH THE PUREST INGREDIENTS

In order to ensure anabolic and anti-catabolic qualities, a variety of high-quality protein sources are needed. That's why MASS EFFECT REVOLUTION™ was designed with Mass Effect OctaPure8 Protein Fusion for full spectrum protein balance.*

Quick-digesting hydrolyzed whey protein isolate, whey protein isolate, whey protein concentrate and SPI-90 help to immediately begin the post-workout repair of damaged muscle tissue, giving MASS EFFECT REVOLUTION™ highly anti-catabolic properties. Micellar casein, milk protein isolate and calcium caseinate are digested more slowly, assuring a trickle-feed anabolic effect.*

The goal of MASS EFFECT REVOLUTION™ is to build high-quality lean muscle mass, so MyoCarb Matrix guarantees crucial muscle-feeding complex carbohydrates from sprouted rice bran and grains, which makes it almost sugar-free.*

Another big part of increasing muscle mass is stimulating muscle volume, and that's why MASS EFFECT REVOLUTION™ contains at least 5 grams of creatine monohydrate and additional L-glutamine in every serving.*

INGREDIENTS: MyoCarb Matrix (Glucose Polymers derived from Grains, Rice Bran Powder [sprouted], Flaxseed Powder), Mass Effect OctaPure 8 Protein Fusion (Defatted SPI-90, Sprouted Brown Rice Protein, Hydrolyzed Whey Protein Isolate [Cow], Micellar Casein [Cow], Milk Protein Isolate [Cow], Calcium Caseinate [Cow], Whey Protein Concentrate [Cow], Whey Protein Isolate [Cow], L-Glutamine), Custom Mass Effect Creatine Fusion™ (Creatine Monohydrate), Non-Dairy Sunflower Creamer Matrix (Sunflower Oil, Corn Syrup Solids, Sodium Caseinate [a Milk Derivative], Monoglycerides, Diglycerides, Dipotassium Phosphate, Soy Lecithin, Tocopherols, Medium Chain Triglycerides), Natural and Artificial Flavors (Tapioca Starch, Natural Cocoa Powder, Natural Extracts, Silicon Dioxide), Sodium Alginate, Acesulfame K

100% CASEIN FUSION®

BUILD MUSCLE AROUND THE CLOCK

- 25 GRAMS OF PROTEIN PER SERVING
- DIGESTS SLOWLY — TIME RELEASED PROTEIN
- 5.5 GRAMS OF BCAA PER SERVING
- 5 GRAMS OF GLUTAMINE PER SERVING
- GREAT FOR NIGHTTIME TRICKLE FEEDING

PROTEIN TIMING DOESN'T ALWAYS MEAN RIGHT NOW

Timing your protein intake is crucial for muscle growth. Quick-digesting protein sources are great for post-workout nutrition, but they're out of the digestive system and into your bloodstream very rapidly. That's great when you need a quick protein boost, but it's not ideal when you want to build muscle all day long. When it comes to feeding muscle tissue 24/7, you need quality protein with a time-release effect...

THE RIGHT PROTEINS FOR CONSTANT MUSCLE FEEDING

Micellar casein and milk protein concentrate are digested slowly, allowing them to trickle feed your muscles for extended periods. Micellar casein can release muscle-building amino acids into your blood stream for up to seven hours after consumption, and that's why it's the main protein source in CASEIN FUSION®.*

The custom protein matrix in 100% CASEIN FUSION® gives you 25 grams of slow-digesting protein per serving, and it includes 5.5 grams of BCAAs and 5 grams of Glutamine, the most abundant amino acid in muscle tissue.* 100% CASEIN FUSION® is the perfect choice for all-day amino acid release when used between meals, but a serving before bed can also build and protect your hard-earned muscle while you sleep — a key muscle-preserving opportunity that many people never think of.*

COLLAGEN TYPES 1 & 3

ESSENTIAL FOR HEALTHY SKIN, HAIR, NAILS, CONNECTIVE TISSUE, AND BONES

SUPPORTS HEALTHY SKIN, HAIR, NAILS, BONES, AND JOINTS*

NON-GMO, GLUTEN-FREE, AND SOY-FREE

HYDROLYZED FOR OPTIMAL MIXING & COMPLETE ABSORPTION*

PROMOTES HEALTHY FLEXIBILITY & MOBILITY*

GIVE YOUR BODY THE RIGHT NUTRITIONAL TOOLS

Maintaining a healthy body means more than just looking lean and fit. To develop a truly healthy body, you need to feed every tissue in your body with the right structural building blocks. That's why you need Collagen Types 1 & 3.

The recipe for maintaining a healthy body is relatively simple: exercise and eat a nutritious diet with plenty of vegetables. But what about optimal nutrition for your skin, hair, nails, bones, and joints?

Collagen is the most abundant protein in your body, and SAN's Collagen Types 1 & 3 delivers pure, natural (hormone-free), and GMO-FREE premium hydrolyzed collagen for easy mixing and optimal digestion, absorption, and utilization.

RESET YOUR AGE CLOCK

As you age, your body loses collagen, causing noticeable and unwanted visible side effects. When your skin loses elasticity and density, you can see more wrinkles and more dimpling from cellulite, which also means your skin can begin to feel rough.

When your connective tissues, blood vessels, and gastrointestinal system (intestinal lumen) lose elasticity and density, things get a little more serious and you can feel the effects in daily life, such as leaky gut. Leaky gut is a digestive disorder where undigested food particles and toxins are able to enter your bloodstream because of increased permeability, causing myriad of other health problems. Increasing your collagen intake helps to fortify the lining of your gut to fend off numerous gastrointestinal issues while also enhancing the absorption of water to help keep you regular. Healthy aging means staying active and keeping up with your nutritional needs. Type 1 and Type 3 are the main forms of collagen you need to maintain healthy youthful skin, hair, nails, and a robust digestive system.*

GLUCOSAMINE CHONDROITIN + MSM

BONE HEALTH & LIGAMENT SUPPORT*

INCREASED JOINT STRENGTH FOR MORE POWER*

SUPPORTS ANTI-INFLAMMATORY EFFECTS & CARTILAGE REPAIR*

CLINICALLY-PROVEN DOSAGES FOR OPTIMAL RESULTS*

ENHANCE STRENGTH THROUGH JOINT & LIGAMENT SUPPORT

While huge muscles are usually an assumed sign of strength, that's not always true. It's often the case that the strongest athletes you'll ever meet will appear to have an average build, or just a slightly muscular physique. Muscle size is more a side effect of training styles, genetics and nutrition - not necessarily an accurate sign of strength. Although you can find athletes with completely different muscle structures who are equally as strong as one another, there is something they always share, despite any differences in how they look. That commonality is strong and healthy joints.

GLUCOSAMINE CHONDROITIN with MSM not only helps to reduce joint inflammation, it also maintains healthy joints for increased strength capacity in athletes of all sizes and all sports.*

The key ingredients, glucosamine and chondroitin, work together to both reduce joint pain and to increase strength and recovery in ligaments and tendons. The MSM, or methylsulfonylmethane, in GLUCOSAMINE CHONDROITIN further expands the healthy production and repair of connective tissues. This means that joint pain won't stop you from pushing harder, and the increased recovery means more strength in the long run.*

AVAILABLE IN BOTH 90 CT. & 180 CT.

DON'T LET YOUR AGE OR DIET BE A SETBACK TO YOUR WELL-BEING

Sulfur is vital to several of your body's critical functions, but sulfur presence naturally decreases as you age, and that can cause you to look and feel older than you should. MSM (methylsulfonylmethane) delivers biologically active sulfur to support and bolster the health of your joints, hair, skin, nails, and numerous other bodily functions.

Modern diets tend to be low in healthy, sulfur-containing foods, and although sulfur is present in many unprocessed, natural food sources, it's lost during cooking or processing. MSM gives you the ability to combat the decreasing levels of sulfur in your body and ensure overall health and vitality.

LOOK AND FEEL YOUNGER AND MORE VIBRANT WITH MSM

MSM delivers biologically active sulfur which is oxidized from DMSO (dimethyl sulfoxide), so you get an easy and convenient way to ensure optimal health of various tissues throughout your body as well as supporting vital bodily functions such as digestion and physical mobility.

The sulfur provided by MSM is required by your body to keep up with keratin production for healthy hair and nails and collagen which supports healthy skin and complexion along with connective tissues. Healthy connective tissues mean you also benefit from increased mobility due to optimal flexibility of healthy joints and muscle tissue.

MSM also helps with detoxification by transporting waste and toxins out of cells. This detoxing process also speeds recovery from exercise and intense activity by aiding in the elimination of lactic acid, so it's beneficial to everyone from athletes to those simply seeking better overall health. As an added benefit, MSM increases nutrient absorption by aiding the digestive process and preventing the increasingly common "leaky gut" syndrome. Plus, with optimal digestion and lack of inflammation you can enjoy the effects of improved immunity and increased energy.

Use MSM as a natural, healthy, and convenient way to support optimal health of your joints, hair, skin, nails, and numerous bodily functions.*

SUPREME CURCUMIN C3

TRAIN WITHOUT PAIN

SUPPORTS NATURAL ANTI-INFLAMMATORY ACTION*

INCREASES ANTI-OXIDANT ACTIVITY IN THE BODY*

IMPROVES BRAIN COGNITION & ACTIVITY*

INFLAMMATION CAN STOP YOUR PROGRESS IN ITS TRACKS!

Chronic inflammation is a real problem for many people, but it's particularly tough on athletes. Whether its caused by the body's natural reactions to certain foods, old injuries, arthritis, or other causes, nothing can derail the motivation more then when your body is fighting against you.

Regardless of the cause, inflammation can prevent you from performing at your peak levels, and that's unacceptable for any athlete who is constantly striving to be the best.

NATURE'S MOST EFFECTIVE HEALTH SOLUTION IS HERE

Turmeric root has an extremely long history of use in Ayurvedic medicine, but its health benefits, including its anti-inflammatory effects, have only been proven for their efficacy.*

Research led to the discovery that the curcuminoids in the turmeric root are responsible for its real-world health benefits. The patented and clinically tested Curcumin C3 Complex® by Sabinsa was used for some of the most prominent research into curcuminoids and tetrahydrocurcumin, which is responsible for curcumin's biological function in the body. That's why SAN uses only this extremely stable and highly bioavailable form in SUPREME CURCUMIN C3.*

SUPREME CURCUMIN C3 not only offers incredible anti-inflammatory effects, but it also has strong anti-oxidant effects and may help support cardiovascular and liver health through its anti-oxidant properties. Piperine is another key ingredient in SUPREME CURCUMIN C3 that not only increases nutrient uptake, but it's also been shown to have additional anti-inflammatory effects.*

GREEN SUPREME FUSION

30 SUPREME SUPERFOODS & ALGAE RICH DRINK MIX

VEGAN FORMULA PERFECT FOR ALL HEALTH-MINDED PEOPLE

HIGH IN FIBER & HEALTH-PROMOTING PHYTONUTRIENTS*

SUPPORTS A HEALTHY IMMUNE SYSTEM*

DELICIOUS TO DRINK & EASY TO DIGEST*

ANTIOXIDANT FORTIFIED*

A HEALTHY FIVE SERVINGS OF FRUITS & VEGETABLES IN EVERY GLASS

We all know that a healthy diet should consist of adequate fruits and vegetables. Not only for the much-needed fiber content, but also for the vast number of nutrients that keep your body and mind in peak health. Packing a health-benefiting number of fruits and green vegetables into your meal plan, however, isn't always easy, let alone convenient.

GREEN SUPREME FUSION is an easy-to-use drink mix that provides the equivalent of five servings of fruits and green vegetables and over 30 nutrient-dense, anti-oxidant super foods in every single serving, taking any inconvenience completely out of the stay-healthy equation.*

With essential vitamins, organic minerals, amino acids, essential fatty acids, herbal extracts, probiotics and digestive enzymes, GREEN SUPREME FUSION is a genuine superfood, and it also has a high ORAC (Oxygen Radical Absorbance Capacity) value, which means it can neutralize and fend off health-damaging free radicals.*

GREEN SUPREME FUSION'S SYNERGISTIC HEALTH-BUILDING FUSION BLENDS:

- LIFE EXTENSION & FREE RADICAL CELL SCAVENGING COMPLEX*
- PHYTONUTRIENT ADAPTOGENIC & SEA ALGAE BLEND*
- VITAL GREENS & HARMONIZING MUSHROOM BLEND*
- ORGANIC & PESTICIDE-FREE VEGGIE POWDER BLEND*
- COMPREHENSIVE PLANT ENZYME & DIGESTION MATRIX*
- PRE-FOS & PROBIOTIC BLEND*

Ingredients

Gluten Free

VEGAN DIETS HAVEN'T ALWAYS BEEN EASY FOR ATHLETES

In the past, it wasn't always an easy choice to live a vegan lifestyle if you're goals were to be a serious athlete, let alone if you wanted to build muscle mass. It was hard enough to get abundant protein through diet alone, but almost all supplemental protein sources of the past haven't been vegan-friendly.

A NEW GENERATION OF PLANT PROTEIN WITHOUT SACRIFICE

Over a year full of vigorous research and development in cold-extrusion technologies has resulted in an unmatched, vegan-approved protein formula from SAN. Not only is RAWFUSION non-GMO, organic and allergen-free¹, it also offers an incredible 21 grams of custom bio-fermented protein per serving—in a vegan formula.*

RAWFUSION's exclusive mix of pea protein isolate, sprouted brown rice and artichoke protein concentrate has created a formula that is ideal for vegans, and is a sensible choice for non-vegans as well. In fact, with over 4.5 grams of BCAAs per serving, RAWFUSION's amino acid profile rivals that of milk protein.*

RAWFUSION is an unrivaled vegan protein formula for anyone seeking an ultra-healthy lifestyle and unwilling to make sacrifices.*

AVAILABLE IN 1 LB, 2 LB & 4 LB SIZES

¹ Common allergens with the exception of our Peanut Chocolate Fudge flavor which contains peanut flour.

CULTIVATE

ABSORB MORE PROTEIN & SUPPORT HEALTHY IMMUNITY

SUPPORTS THE DIGESTIVE PROCESS*

AIDS IN AMINO ACID UPTAKE*

HELPS ELIMINATE BLOAT & DISCOMFORT*

PROMOTES HEALTHY GUT IMMUNITY*

EATING WELL SHOULDN'T LEAD TO BLOAT & DISCOMFORT

We all know that it takes well-balanced nutrition to get in shape, whether your intentions are burning fat or gaining muscle. Sometimes that means eating large servings of protein and fibrous vegetables, and other times it means being stuck on the road and needing to resort to a cheap, store-bought protein shake loaded with lactose...

This sort of eating can often lead to feelings of being bloated, or just general abdominal discomfort, and SAN knows that those feelings can hamper your will power and progress.

BALANCED INTESTINAL HEALTH SPEEDS UP NUTRIENT ASSIMILATION

Our guts require balanced beneficial bacteria in order to function properly. While probiotics are the familiar healthy bacteria which aid in our digestion process, prebiotics are also required in order to help nourish the good bacteria.*

CULTIVATE was formulated to be the perfect prebiotic, probiotic and plant enzyme catalyst for active people, and to promote the highest possible level of amino acid uptake. SAN's custom formulation of plant enzymes is designed to help break protein down into its free-form amino acid elements for the highest level of assimilation possible.*

CULTIVATE restores balance to the digestive system, and supports complete digestion of protein, carbohydrates and fats, as well as lactose and vegetable cellulose.*

YOHIMBINE

ULTRA PURE — PHARMACEUTICAL GRADE

- INCREASES BLOOD FLOW*
- ENHANCES MOOD & WELL-BEING*
- POTENT FAT-BURNING EFFECTS*
- NATURAL APHRODISIAC*
- ELEVATES SEXUAL PERFORMANCE*

LOOK BETTER, PERFORM BETTER & FEEL BETTER

Yohimbe has been used for many years by those believing it would increase sexual vigor due to increased blood flow. The raw herbal form was believed to have potential aphrodisiac effects with the ability to intensify male stamina...

The true power of this bark sourced from African evergreens wasn't truly realized until recently, when the purified yohimbine HCL found in YOHIMBINE became available. The tables have turned now that the maximum absorption of this Alpha 2 Receptor Antagonist is accessible. By blocking Alpha 2 receptors, free fatty acids are released into the bloodstream so fat can be effectively burned off as energy. Combined with the potential appetite suppressant effects, this makes for a formidable fat burner.*

YOHIMBINE can improve performance beyond just the ability to burn fat, however. Amplified blood flow not only supports an increased sense of well-being, it also means that it has stimulating effects to other areas that can help support normal sexual function. YOHIMBINE helps you to feel great, look better and perform to your maximum potential in ALL activities.*

** Daily value not established.

SUPER ENERGIZE YOUR BODY

SAN's CAFFEINE anhydrous is formulated to be the perfect power and energy accelerant! It's ability to super energize your body for powerful workouts is currently unparalleled.

CAFFEINE's fast-acting substance delivers the right molecular structure to your energy systems for enhanced energy and power output.*

CAFFEINE can also support the increase of mental alertness and neurologically provide you with the surge to optimize your hard grueling training sessions.*

Not just a stimulant, this powerful compound reaches deep into the muscle cell to provide lasting endurance and delaying the onset of muscle fatigue equaling greater workouts.*

ULTRA PURE GREEN TEA

MAXIMUM EGCG CONTENT

- INCREASES FAT BURNING*
- INHIBITS THE ABSORPTION OF DIETARY FAT*
- SUPPRESSES APPETITE TO HEALTHY LEVELS*
- POTENT ANTIOXIDANT SUPPORTING A HEALTHY IMMUNE SYSTEM*

NATURALLY BENEFICIAL FOR HEALTHY WEIGHT & STRONG IMMUNE SYSTEM

The health-benefiting effects of green tea have been known of for ages. From its powerful antioxidant effects to its highly-praised fat-burning benefits - it's been in the cabinets of people from every walk of life for centuries.

ULTRA PURE GREEN TEA was developed to take away the inconvenience of brewing and drinking tea all day while also making for a much more potent choice. By utilizing our Ultra Pure Green Tea Extract, standardized to 300 mg of epigallocatechin gallate (EGCG) per serving, you get all the health benefits of green tea in each single-capsule serving.*

Supplement Facts

Serving Size: 1 Capsule
Servings Per Container: 60

Amount Per Serving

Ultra Pure Green Tea Extract (leaf)	500 mg**
(98% Polyphenols, 60% EGCG)(300 mg EGCG)	

** Daily Value not established.

ULTRA PURE GREEN TEA helps with fat loss in more than one way. The most obvious method is increasing your ability to burn off existing body fat, but it also helps to inhibit the absorption of some dietary fat so that a greater amount is excreted without ever being stored in the body [*J Nutr Biochem. 2007 Mar; 18(3): 179-183*]. Not only that, but another potent effect is the ability for ULTRA PURE GREEN TEA to work as an appetite suppressant, so you not only absorb less fat, you eat less too.*

Beyond just fat-loss benefits, ULTRA PURE GREEN TEA also has potent antioxidant properties that protect your body from free radicals and help support healthy immune system function.*

ULTRA PURE GREEN TEA is a convenient and healthy choice for people looking to reduce body fat and build a stronger immune system.*

PREMIUM FISH FATS GOLD

INCREASES CARDIOVASCULAR HEALTH & FAT LOSS*

600 MG OF OMEGA-3's PER SERVING (18% EPA, 12% DHA)

DECREASES THE ABSORPTION OF DIETARY FAT*

POWERFUL ANTIOXIDANT*

SUPPORTS IMMUNE SYSTEM FUNCTION*

GOOD FISH FATS SHOULDN'T BE HARD TO FIND

It used to be that fish was the go-to source for healthy Omega-3 fatty acids, and supplemental fish fats were ideal for those who couldn't get enough fish in their diet, or who just didn't like the taste. Many of the fish-based Omega-3 supplements didn't necessarily solve the flavor problem, however, and it soon became apparent that many fish sources were heavily contaminated by heavy metals and other industrial waste products.

CONTAMINANT-FREE FISH FATS PROVIDE PROPER OMEGA-3 BALANCE

Clinical evidence shows that the high amounts of EPA and DHA in PREMIUM FISH FATS GOLD help promote cardiovascular health, increase cognitive abilities and improve fat loss and retention of muscle.*

By selecting components from previously tested oils, PREMIUM FISH FATS GOLD is able to provide a source of Omega-3 fatty acids from cold-water fish that is certified to be 100% free of any pesticides, PCB or heavy metals, such as mercury.*

PREMIUM FISH FATS GOLD will have a positive effect on your cardiovascular system while helping you shed body-fat.*

PURE CLA 1250

ACHIEVE A LEANER BODY AND OVERALL WELL-BEING

QUICK-RELEASE SOFTGEL

CONVERT BODYFAT INTO ENERGY*

STIMULATE LEAN BODY COMPOSITION**

SUPPORT HEALTHY IMMUNE SYSTEM

Contrary to popular belief, incorporating beneficial dietary fats into your regimen has been recognized by athletes for its numerous advantages. However, some of the most advantageous fatty acids are primarily found in food sources that may be inconvenient in terms of the quantities required to reap their benefits.

The initial research on CLA (Conjugated Linoleic Acid) conducted at the University of Wisconsin sparked interest in this naturally occurring fatty acid. Subsequent studies have demonstrated its positive impact on promoting lean body composition and supporting immune system function.

Pure CLA 1250 is designed to not only inhibit fat accumulation and facilitate the conversion of fat into energy but also to positively influence cholesterol levels (as long as you don't indulge in excessive pizza and pasta consumption). Alongside its key fat-burning benefits, Pure CLA 1250 also aids in muscle development, amplifying your body-shaping potential.

With Pure CLA 1250, you can embrace a healthy approach to achieving a lean body while enhancing your overall well-being.*

COQ10

TESTED & CERTIFIED UBIQUINONE

PROVIDES PROTECTION FROM FREE RADICAL DAMAGE*

IMPROVES ENDURANCE & ENERGY PRODUCTION*

SAFE & NON-TOXIC*

MANUFACTURED USING NATURAL FERMENTATION PROCESS*

DEVELOPED IN JAPAN*

SUPPORTS NATURAL HEART HEALTH*

PROTECTION FROM FREE RADICAL DAMAGE

SAN's CoQ10 (Coenzyme Q10), also known as ubiquinone, exhibits antioxidant like properties that may protect the user from free radical damage.*

Coenzymes are substrates that facilitate key activities throughout the human body organism.*

CoQ10 is believed to be used as a substrate by the body to turn food into energy by a series of complex reactions that may involve ATP (the cell powerhouse engine).*

CoQ10 has also been investigated as an aid to improve endurance due to its effect on energy production.*

CoQ10 is both safe and non-toxic, has been consumed safely by millions of people around the world and is manufactured through a natural fermentation process which was exclusively developed in Japan.*

LIVER SUPPORT FORMULA

LIFE SUPPORT FOR A HEALTHY LIVER

MAINTAINS & PROTECTS HEALTHY LIVER FUNCTION*

AIDS IN LIVER DETOXIFICATION*

STIMULATES HEALTHY BILE PRODUCTION*

PROMOTES HEALTHY CHOLESTEROL LEVELS*

REINFORCEMENT FOR ONE OF YOUR BODY'S HARDEST WORKING ORGANS

Even with a healthy nutritional plan, your liver is a crucial organ that takes on a serious workload. Nearly every toxin and chemical that enters your bloodstream gets processed or disposed of by your liver. Daily life forces your body to filter an abundance of contaminants on its own, but that demand increases even further when drugs, alcohol or medical conditions come into play, and even more so when you find yourself surrounded by other environmental toxins and pollution.

LIVER SUPPORT FORMULA gives your body the defense you need to fight off potentially performance-robbing plateaus you may reach when your liver is overtaxed.*

Supplement Facts

Serving Size: 1 Capsule

Servings Per Container: 100

Amount Per Serving

Milk Thistle Extract (<i>Silybum marianum</i>) (Std. to 80% Silymarin Flavonoids)(seeds)	300 mg**
Dandelion Root Extract (<i>Taraxacum officinale</i>)(4:1)	100 mg**
Artichoke Extract (<i>Cynara scolymus</i>) (Std. to 2% Cynarin)(leaf)	50 mg**

** Daily Value not established.

The natural extracts in LIVER SUPPORT FORMULA effectively add to your body's ability to handle everything you and your environment throw at it. Milk Thistle Extract has been used successfully for years to maintain a healthy liver and protect it from damage, and it is often prescribed to support various liver damaging conditions. Dandelion Root Extract is known for its liver-detoxifying properties while Artichoke Extract protects the liver by increasing the ability of bile produced in the liver to effectively deal with lipid processing.*

LIVER SUPPORT FORMULA provides the help your body needs to protect and support a healthy liver*

NA-R-ALA

BLOOD SUGAR SUPPORT & NUTRIENT PARTITIONING AGENT*

- ENHANCED NUTRIENT PARTITIONING*
- POTENT PROTECTION AGAINST FREE RADICALS*
- ADVANCED GLUCOSE DISPOSAL AGENT*
- THE MOST STABLE & BIOAVAILABLE FORM OF RLA*
- BIOSOLV-ENHANCED FOR THE BEST POSSIBLE ABSORPTION RATE**

THE FIRST & ONLY STABILIZED SALT FORM OF R-LIPOIC ACID

The antioxidant effects of the R isomer of alpha lipoic acid (ALA) are well known to be more effective than the synthetic form of ALA, and the sodium salt (NA) version is the most stable and bioavailable form, even more so than potassium R-ALA.*

NA-R-ALA is Biosolv-enhanced and fully water soluble as a result, which means that it is completely absorbed and utilized, and it can easily pass through cell membranes.*

NA-R-ALA is a powerful and versatile antioxidant, helping to protect the mitochondria of cells from damage. This means it fights off free radicals and ensures the prevention of fatigue product buildup.*

The nutrient-partitioning effect of NA-R-ALA makes it an advanced glucose disposal agent that helps maintain beneficial blood sugar levels in healthy individuals. While this sodium salt version is the most beneficial form of ALA available, the sodium content is less than 1% of the daily value, making it low enough that it will not affect blood pressure levels.*

NA-R-ALA is a powerful and easily absorbable free radical scavenger with advanced nutrient partitioning.*

Supplement Facts

Serving Size: 1 Capsule

Servings Per Container: 90

Amount Per Serving

DHEA (<i>Dehydroepiandrosterone</i>)(micronized)	50 mg**
--	---------

** Daily Value not established.

RESEARCHERS CONCLUDE DHEA SUPPLEMENTATION MAY HAVE SIGNIFICANT BENEFITS RELATED TO HIIT ADAPTATION

With the popularity of high intensity interval training on a rise (HIIT), a new study concludes "acute oral DHEA supplementation can help support healthy free testosterone levels in middle-aged men and prevent it from declining during HIIT."

DHEA BENEFITS MEN AND WOMEN ALIKE

According to the world-renowned Mayo Clinic, there is strong scientific evidence that DHEA benefits men and women alike as it can help support healthy bone density, mood and weight management. Moreover, the famed clinic says good scientific evidence suggests that DHEA Supplementation can enhance adrenal health as well as sexual vigor.*

WHAT IS DHEA?

The scientific name for DHEA is dehydroepiandrosterone. In the adrenal glands it is produced from the precursor pregnenolone. Studies show that with age DHEA levels often decrease considerably. When used as recommended, DHEA supplementation can play a role in the restoration and maintenance of healthy biological levels of DHEA as well as testosterone. SAN's DHEA does not contain wild yam extract.*
