LABOTTEGA®

Beauty will save the world.

We are not talking about art and nature. Salvation will come from beauty that we see every day around us when we are in a good mood.

The day seems brighter than usual, the coffee tastes better, the news are positive. It is the beauty of the little things that we like to spread in your hotel: crystals that dissolve in water, soaps that become mousses, soft and scented creams.

The play of water and its vapors, the rich foams, the cold alternating with the hot: every day is the best excuse to smile at the world.

[CODECONCEPT]

Here at anatomē, we've developed sleep oils that can be used with a sleep routine to help you get a better sleep. Working with a team of aromacologists and nutritionists, we've concentrated on four oils to address a different sleep concern.

Cornish Lavender for tired body and mind
Somali Frankincense for the overactive mind
German Chamomile for those that struggle to fall asleep
Japanese Seaweed for the light sleeper

WHY IS SCENT SO IMPORTANT?

Scent is a powerful trigger that activates our "limbic system" known as the limbic system - a network of connected structures near the middle of the brain linked within the central nervous system. These structures work together to affect a wide range of behaviours including emotions, motivation, and memory. This system deals with instinctive or automatic behaviours and has little to do with conscious thought or will. The limbic system also deals with translating sensory data from the neocortex (the thinking brain) into motivational forces for behaviour.

Carthusia

I PROFUMI DI CAPRI

Carthusia

I PROFUMI DI CAPRI

In 2018 Carthusia celebrated the 70th anniversary of the foundation of the brand that more than any other is synonymous with Capri in the world, its colours, fragrances, a generous and unique territory, which it has been able to transform into perfumes.

First for the person, then for the environment, developing several complementary lines, synonymous with a lifestyle that expresses relaxed sophistication. It was in 1948 - the year in which the ancient formulas of the perfumes came to light - that the prior of the Certosa di San Giacomo, under papal license, revealed them to a Piedmontese chemist. It was he who opened the smallest fragrance laboratory in the world in Viale Matteotti, where it is still located today and can be seen between the wooden panels of the perfectly preserved period furniture. Today it houses instruments and machinery made to measure to ensure production efficiency, even though many of the phases are still carried out by hand by specialized personnel. Also in 1948, the painter Mario Labocetta brought together in the Liberty image of the floral mermaid, which immediately became the company's emblem, the key elements of Capri's classical heritage, including surrealistic suggestions and mythological hints. A multitude of colored flowers - the same ones from which Carthusia perfumes are descended - is released freely in the game of metamorphosis, an immediate expression of the perfect balance between art and nature, creativity and method.

CLAUS PORTO
S I N C E 1 8 8 7

The roots of Claus Porto stretch back to 1887, when two German gentlemen arrived in a beautiful, historic Portuguese city. The marriage of these two European identities led to the creation of a renowned house of beauty and fragrance that celebrated its 130th anniversary in 2017.

The brand built its name on hand-crafted soaps infused with fine fragrances that draw on ingredients from Portugal's countryside. The products are imbued with an artisan's heart and soul and wrapped by hand displaying beautiful art work.

Through 130 years and 4 generations, Claus Porto developed its unique expertise in soaps, colognes, scented candles, home diffusers or men grooming products, crafting a philosophy of authenticity and an incredible portfolio of colourful hand-made labels and design patterns, each with its own unique personality.

Honest, Genuine, Trustworthy.

Nestled in the tiny neighborhood of Greenwich Village in New York City, C.O. Bigelow is the landmark apothecary that has been a fixture of New York City culture since 1838.

For nearly two centuries, Bigelow has been a destination for the Country's most prominent personalities, from Thomas Edison and Eleanor Roosevelt to modern film stars and esteemed writers, musicians, and artists.

Inspired by actual formularies and therapeutic ingredients from our archives, C.O. Bigelow's personal care products combine centuries-old, proven formulas with modern remedies sourced globally. In keeping with our longstanding mantra of "Honest, Genuine, and Trustworthy," the line is an authentic range of problem-solution formulas with a heritage of efficacy. Many of the products are not only true to the original formularies but also named for the doctors who created them or the patients for whom they were initially made, continuing to tell a story of C.O. Bigelow's apothecary tradition.

Once upon a time...

Existed a story of love and friendship that lasted 40 years between Christiane, Yves and Desmond, three transdisciplinary creators from the worlds of architecture, theatre and painting.

Once upon a time, there were three multiskilled idealists, three free and cultivated poets, three aesthetes and artists, who were united by their taste for travel and great civilizations, and a shared sense of beauty.

Once upon a time, three "marchands de rien" (purveyors of trifles) sold only what they loved, what they discovered, redecorated and repurposed in the course of their inspired travels.

Once upon a time, there were decorative items, scented candles and the perfumes - because, ultimately, smells, more than any element, serve as bearers of memory to inspire, and encourage the imagination to wander.

L'OMBRE DANS L'EAU

L'Ombre dans l'Eau is a romantic painting that narrates a story of daydreams from a summer moment on a calm river under a weeping willow. The inspiration for the scent happened when a friend of the founders noticed the alluring aroma of roses and blackcurrant berries on her hands after an afternoon in the garden. The scent was so surprising that the creators wanted to capture all of its dimensions: the herbaceousness of the blackcurrant leaves, the fruity acidulated accents of their buds and the floral intensity of the rose. It is a nature-filled moment to savor. In the Eau de Parfum variation the fragrance is denser and more sensual fragrance of a rose in full bloom.

DS&D URGA®

D.S. & DURGA was founded by David & Kavi Moltz.

“We started from scratch and did it our way (more Sid than Sinatra). We were pioneers in the DIY Brooklyn movement and began by turning things we loved into scented stories of cowboys, open terrain, Russian novel characters, and folk songs - all packed into handstamped boxes in our Bushwick apartment. Attention to detail and the importance of human hands are still vital to our process today”.

D.S. & DURGA is one of the only fragrance brands whose perfumer sits at the helm. Our scents evolve from carefully crafted narratives for a sensory experience that extends beyond just smell. Each perfume has stories, photos, films, and playlists. Kavi approaches her work like the architect she was trained to be. Thinking in angles, light, shadow, and texture, Durga seeks clarity in form and function. She builds buildings for our scents, cities for our universe.

D.S. taught himself how to make perfume by completely immersing himself in all things fragrant. He is dedicated to translating musical and literary spaces into scent. Each fragrance is conceived and constructed by D.S. exclusively. Our perfumes are all made in New York City - fragrances formulated in Brooklyn, bottles filled in the Bronx.

D.S. & DURGA aims to create fragrances that live on the level of great music, painting, and literature. a perfume is a world you can return to over and over again — a keyhole into far off places — material and imaginary.

First released in 1989, the ETRO fragrance collection envisages perfumes as an art of the intellect and a striking artisan alchemy that infuses timeless memories with inebriating emotions to become purely sophisticated essences.

Entirely crafted in-house, in collaboration with expert maître parfumeurs, the collection features 23 universal blends comprised of eaux de toilettes and eaux de parfumes.

The range further includes the bath line and ambient fragrances - exemplified in green and fuchsia, respectively - for a complete and enveloping olfactory journey to awaken all senses while transporting them to faraway confines and yet unexplored sensations.

In this broad and evocative range, natural ingredients take center stage wafting through zesty spices and lavish incenses towards warm woody notes intermingling with resins, herbs, and citrus fruits.

Exuding the brand's vision of flair and fascination, ETRO's fragrance collection is an immersive and caressing universe to explore, discover, and enjoy every day in ever changing ways. As the newest experience added to this choral narrative extends beyond the customary routine to deliver an inventive ritual of self-expression, different fragrances can also juxtapose and interweave like the precious threads of a beautiful fabric.

EDEN (UDAIPUR)

Udaipur encapsulates the primary inspirations of the Maison, reinterpreted them through the varied nuances of a fragrance that evokes both summer in the Mediterranean and the gardens of the Maharaja. The Sambac jasmine with its angelic and noble petals represent blessings during nuptial rites, bestowing grace, good luck and romanticism.

This fragrance is a hymn to the skill of Italian artisans, to the magic of India and the many connections between these two worlds, which over time has woven a tale of the imagination.

In a year that has seen a great deal of change we are proud to say we remain an independent family owned business, and have been for 290 years. Based in the elegant quarter of St James's, Floris is proud to be the standard bearers of perfumery expertise in London. Nine generations of perfume creation has taught us the emotive power of scent and the skill required to create perfumes of unmistakable quality.

Our ancestor Juan Famenias Floris travelled from Minorca to London and married his English Sweetheart, Elizabeth. Together they established a working perfumery which is still in use today.

As the oldest independent perfumery in England, we have developed a sustainable yet innovative approach, long lasting relationships with our customers, as well as finding ethical ways to access the world's most precious perfume.

Made in Britain, using the finest essential oils and essences gathered from around the world. We are proud to add new fragrance creations to the repertoire of our forefathers and be custodians of Floris for future generations.

We have been proud suppliers to the Royal Household since 1800, receiving our first Royal Warrant by a reigning monarch as "smooth pointed comb maker" to HM King George IV.

The perfumer's art can ignite the senses and vividly recall our memories, enriching the most precious experiences in our lives. Creating scents that evoke emotion, make you feel special, or mark an important moment for you is essential to us.

Fragonard

PARFUMEUR

Parfumerie Fragonard was created in 1926 by Eugene Fuchs. As a tribute to the town and celebration of the elegance of 18th-century arts, he named the new business after the famous royal painter Jean-Honore Fragonard (1732-1806). His choice of name was also an expression of his intention to run the perfumery on traditional lines. That spirit has been steadfastly preserved by the three succeeding generations of the family - which is still running the company.

Because of its wonderful location, Grasse and its surrounds are endowed with very favourable conditions for growing a great many species of flowers and aromatic herbs. With the warm summer sun of the South of France, the mild winters of the abundance of mountain streams, there is an exceptional micro climate.

OLIVE

Renowned for its nutritious virtues, olive oil overflows with active antioxidants (anti-ageing action), fatty acids and vitamin E. Rich in calming properties, it soothes away redness and irritations. Because it is gentle, olive oil is perfect for even the most sensitive skins. The entire Olive range is perfumed with neroli, a 100% natural fragrance containing over 90% natural essential oil, renowned for its soothing properties.

The fragrance is NEROLI, a 100% natural scent including 90% of essential oils (Petitgrain, Orange, Citron et Néroli)

ESSENTIALS

Peppermint, Rum, Vitamin B5 and Cilantro are natural perfumes, provided with a single note. They are used for their specific therapeutic properties. Peppermint is used for its holistic benefits and well-known for its stimulating effect on the scalp, as well as for being cleansing and antibacterial. Bay Rum updates its traditional, apothecary origin among the perfumes: it has been a pillar in those environments for centuries. By using it, the modern pharmacist mixes tradition and modernity.

ORTIGIA

SICILIA

Ortigia is a small Italian soap and scent company founded in Sicily. The luxurious range of soaps, scents, creams, candles and lotions are formulated using natural products indigenous to Sicily and inspired by the aesthetics, colors and scents of Italy's most historic and tropical region. The base of all the products is natural perfume and natural ingredients: olive oil, vegetable glycerine, and organic colours. No SLS, nickel or silicone; products not tested on animals. Paraben free, the range uses traditional products with modern ethics and integrity. All Ortigia products are made by small family companies who pride themselves on the quality of their products.

The name Ortigia comes from the small island that lies at the edge of the ancient fortified city of Siracusa, on Sicily's southeastern coast. The streets of Ortigia are crumbling baroque façades of great splendour looking out on 3 sides to the sea.

There are hundreds of orange & lemon groves – the only place where blood oranges grow – also grapefruit trees, almonds, pistachios, saffron, vines, olives and cactus. The uniquely rich and layered culture that is found in Sicily today, has inspired the creation of the Ortigia range.

Born in Marseille and nurtured from an early age in the gentle lifestyle of Provence, Jérôme Lambruschini grew up in the shade of the cypress trees and mimosas of the Southern Alps region. His grandfather passed down his passion for trees, the vegetable garden and nature. As for his mother, she instilled in him her love for the earth and perfumes. It is from this dual inspiration, both Mediterranean and maternal, that you can find today in every Panier des Sens product, whose first collections came out in 2001. Inspired by the gentle lifestyle of the South of France, the Panier des Sens range of care, toiletries and perfumes illustrates Provence through fragrant and natural collections. The natural formulas benefit all skin types, and abide by a strict formulation charter, always giving precedent to vegetal and organic natural ingredients. The packaging, floral and carefully designed, are also eco-conceived. The ranges of lotions, soaps and perfumes magnify the beauty of Provence through elegant products with subtle textures and delicate fragrances from Grasse.

It was during the early 20th century, that an unprecedented innovation was on the brink of discovery. All it would take to come to fruition, would be the serendipitous encounter of these two great Parisian minds. The Chemist, a young handsome researcher, went out for a walk at the very edge of the noisy metropolis wearing his white lab coat. The 20th District was cobbled together with land and villages that at the time were outside the city limits. That part of town had always something mystical.

On that particular day the intensity of the fog was unnaturally entwined with the strange light in the clouds. The Chemist had walked that path many times on his way home from work, but only that day, in that odd misty light, did he notice an opening, something akin to a passageway in between the bushes. He decided to follow it.

With a quickened heartbeat, and an insatiable curiosity, he stepped through the gap in the bushes. A secluded garden, something the likes of which he had never seen, revealed itself at the end of the pathway. Exotic plants, flowers of any and every color. A wave of aromas, blended in the air.

"This must be the secret 21st district", he thought. Suddenly an old, stylish and Extravagant man stepped out from a shed. He wore a green velvet suit and thin glasses balanced on his nose as he carried a heavy jar. His look brought back a different era. This man was The Botanist.

SPICY THYME

Thyme is a plant rich in essential oils with antioxidant and purifying properties. Its essence energizes and stimulates the mind and the body. The aroma is intense, warming, and slightly spicy. This formulation is ECOLABEL certified.

THE MERCHANT[®]
OF VENICE

The Merchant of Venice is the brand of artistic perfumery inspired by the city of Venice and its centuries-old trade with the Orient. Established in 2013, it includes exclusive collections involving a wide range of Eau de Parfum and Eau de Toilette, body-care and room products.

The concept takes its inspiration from the rich history of the city of Venice, with particular reference to the period of its maximum commercial splendor. Between 13th and 16th century, Venice became the first European power due to the mude: naval convoys organized by the Venetian Republic to trade goods from Asia to the European markets.

The trade goods included raw materials, spices, and essential oils, all of which entered the Western markets for the first time. This system allowed the development of a rich and valuable perfumery tradition in Venice.

The fragrance lines by The Merchant of Venice are the result of the skill of master perfumers who reinterpret ancient recipes from the Venetian tradition. The fragrances are enclosed in precious bottles, the colour and shape of which are inspired by the processing techniques from the millenary tradition of Murano glassmaking.

The Merchant of Venice is currently distributed in corners and shop-in-shops in the most prestigious national and international department stores, as well as in its exclusive flagship stores in Venice, Verona, Milano and Dubai, and other selected independent perfumery shops.

MANDARIN CARNIVAL

Sicily has the power to enchant you with its colours: its deep blue sea and sky, fields of green, and rainbows of rich and aromatic flowers. It is like being present at a costumed-ball. Mandarin carnival embodies these colours with its bursts of citrus freshness of the finest native mandarins and also, through the sweetness of tamarind, it brings to mind the aura and mystique of exotic lands.

TOILETPAPER

Born in 2010, TOILETPAPER is an artist's magazine created and produced by Maurizio Cattelan and photographer Pierpaolo Ferrari. Since the first issue TOILETPAPER has created a world that displays ambiguous narratives and a troubling imagination. Combining commercial photography with twisted narrative and surrealistic imagery. The result is a publication that is itself a work of art which, through its accessible form as a magazine, and through its wide distribution, challenges the limits of the contemporary art economy.

BEAUTY COLLECTION

A collection with a unique character which conveys the passion and fun of its creators. The idea of beauty in this line starts from the image, a pleasure involving all the senses and which stimulates imagination, so that everyone can indulge in an ecstatic, perfumed and surreal world where everything is possible. Colored snakes caressing your hair. Humanoid flowers looking at you while you look after your body. Hands with lipsticks for your hands.
