SEALANT FOR ALL WOOD SURFACES

PREMIUM WOOD TREATMENTS, FOR A LONGER LIFE

Inspired by the technological advances in the coating industry, our range of coatings offers a dynamic choice of colours and finishes. Our finishes are a blend of natural oils which give natural elegance to wood - with a timeless, classical beauty and enduring warmth.

Our passion for finishes, gained through 30 years experience working with top designers in the industry, means we bring far more than a wood coating.

Koate can create a bespoke colour to fit in with your project design and theme. Working with our in-house colourist, we'll help you find the ideal match for you - and we also offer a full range of standard colours. Not only is our wood coatings suitable for wood surfaces but also for other surfaces such as Valchromat and Honext.

Our journey with you will go beyond the perfect finish and colour for your wood surface. Whether you seek refreshingly individual, charmingly rustic, sustainable or industrial, we'll work with your entire design concept and help you choose a finish that is as practical and durable as it is stylish.

ONE COAT DOOR OIL

Colours and protects your wood doors from daily wear & tear in one coat

One Coat Door Oil is a two component one-layer Hardwax oil that can be used for the protection of interior wood doors. The oil is the result of a unique blend of natural oils and hard waxes without addition of solvents and enhances the natural look and feel of the wood.

- **0% VOC's**, NO volatile organic compounds
- **High coverage** per litre
- Provides colour and protection in **One Coat**
- **Easy to apply** to all wood types
- **No overlaps**
- **Extended** pot life when mixed, 2 component
- **Easy to maintain**

COLOUR BASE

*Pre-colours your wood
to create more shades of
colour*

Colour Base is an environmentally friendly stain based on a unique Cellular Saturated Anchoring (CSA) technology containing nano minerals structures and micro-pigments. This technology enables the applicator to apply the stain without overlapping.

- **0% VOC's**, NO volatile organic compounds
- **Easy to apply** to all wood types
- **No overlaps**
- **Good colour fastness**
- **Water based**
