Instructions:

- Your shot glass starts on the 20 yard line (second shot position)
- To start, each player/team throws the dice, whomever gets a higher number gets the ball first/starts the game
- Each player/team has 4 drives down the field, so 8 total in a game
- Each drive consists of 4 downs representing 4 quarters of a game
 - Each down, you roll the dice (only 1 die) to see how far you move the shot glass (your ball) down the field
 - Move as many yards/positions forward or back in accordance to the number you threw (see chart below), or turnover if you roll a 6
- If your drive ends in a Touchdown (shot glass is in the end zone), the opposing player/team drinks the shot and you get 7 points
 - The shot starts again at the 20 yard line for the opposing team
- If you do not score a touchdown and turn it over on downs (4 turns taken, no touchdown) the opposing player/team starts where you ended
- If you're sacked back in to your own end zone, that's a safety
 - Drink your own shot, 2 points to the opposing player and turnover
- The player/team with the most points at the end of the 8 drives wins!
