# CREATE THE PERFECT SPACE FOR YOUR HOME WITH OUR BEAUTIFUL WOODEN GATES

## WHY CHOOSE STELLAR GATES?

With over over 30 years of experience in the timber trade, Stellar Gates was set up to provide high quality gates for homeowners and installers across the U.K.

We manufacture all of our own gates in our workshop, and have gained a wealth of experience and expertise, having supplied gates to thousands of happy customers.

We pride ourselves on our dedication to excellent customer service and high quality.

## KEY FEATURES

### Quality materials

Our wooden gates are made from high performance Iroko hardwood and sustainable Scandinavian redwood.

### Ironmongery

Our gates have the option to be supplied with tough galvanised hinges, latches and bolts. Available in galvanised or with a black finish.

### Standard designs

Our standard design gates provide a range of our most popular designs that we can manufacture quickly and efficiently.

### Strength

All our gates are made with 70mm thick mortice and tenon doweled framework with T&G boards inset into the frame.

### Treatment

High performance external oil with UV protection are available with all gates for the best maintenance possible.

### Bespoke designs

Bespoke designs are also available for those who want something unique and suitably made to their specifications.

## KEY FEATURES

- A range of our most popular and favourite designs.
- Available in Iroko hardwood and Scandinavian redwood.
- Made to any width and height to suit your space.
- Available for better prices and delivery times than more bespoke options.
- Variations on specifications available.

# ACCESSORIES

**Matching wall posts to install on the inside of brick walls or existing posts. These have the option of attached beads to cover gaps.**

**Steel posts to install into the ground. These have the option of timber sleeve and cap to match the gates.**

**Galvanised hinges, latches and bolts to suit both single gate and double gates. These have the option of being sprayed black if preferred.**

**A heavy duty key lock lockable from both sides with stainless steel bolt. These come with 5 keys and have an option of a turn screw on the inside if required.**

**High quality UV protection exterior oil available in a variety of different shades. These are supplied in 1 litre and 2.5 litre tins to suit the size of the gates.**

# MADE FOR AUTOMATION

## AUTOMATION SPECIFICATIONS

- Chunkier framework to suit automation hinges.
- Full bottom rail to suit bottom hinge.
- Option of a 'hinge cut-out' for the top hinge to align with the bottom.
- We can work to your specification if the gates are being installed with above ground, underground or sliding automation.

**CONTACT US FOR MORE INFORMATION ON OUR  
AUTOMATED GATE RANGE. WE CAN WORK WITH YOU TO  
MAKE THE PERFECT FIT!**

## HOW TO ORDER

Standard design gates are available to order online or by email/over the phone.

Everything you'll need:

- Choose between our garden gates, side gates or driveway gates.
- Choose between our softwood or hardwood options.
- Choose which design of gate.
- Use the measuring guide to work out the exact width and height of the gate(s) you need.
- Do you need posts? Are they wall mounted or in the ground?
- Do you need a hardware kit (hinges, latch, bolt and/or lock)?
- Do you need oil?

For bespoke designs and gates suitable for automation, please get in touch by email or phone to make an enquiry.

## DELIVERY

We deliver to the majority of mainland U.K.

Our lead times differ throughout the year so please check our website or get in touch to see the current delivery times.

Please ensure you are in receipt of the good before committing to an installation date with your installer.

Notification by email is sent once the order has gone into production and again once the delivery has been arranged. The courier will then make contact to arrange a suitable delivery date.

# IMPORTANT INFO

## GUARANTEE

The gates are a bespoke product made to the measurements requested by the customer. There is no right of return for products made to these specifications.

In the unlikely event that you are not satisfied with any products purchased, please email [hello@stellargates.co.uk](mailto:hello@stellargates.co.uk) with any issues you have along with images of any faults. We use a third party courier for our gates so you will need to check the condition of the items before accepting.

Our gates undergo a full quality control inspection before being dispatched so any damage caused will have occurred during transit. If damage is found, the customer should not sign for the delivery and let us know as soon as possible about the damage.

If the gates do not match the sizes on the order, Stellar Gates will arrange the collection of the order to repair or replace the gates if appropriate.

It is the customers responsibility to make sure their measurements are correct. Therefore, we can not return or exchange products that are the wrong size due to the customers incorrect calculations.

Gate hardware and stain can be returned within 14 days of receiving the goods. Charges for delivery are not included in the refund.

All gates come with a 12 month warranty.

The gate must be maintained by the customer as advised on the website and installation/treatment guides supplied on order. Failure to do so may result in damage to the timber and the warranty will be void.

Timber is a natural product and it is possible for some splits cracks and shakes to appear. These natural occurrences will not affect the durability of the gate and are not covered by the warranty. Different timbers can react to variations in temperature and humidity and natural movement and twisting can also occur. This is natural movement and is not covered by your warranty.

No guarantee can be given against damage made to the gate after installation, for example wind or storm damage.

Exact colours cannot be guaranteed and colours seen on the website can be different dependant on computer settings. Some variation and staining may occur due to natural secretions of the wood. Treatments can not be guaranteed.

Stellar Gates Ltd reserve the right to cancel and refund under certain circumstances due to unforeseen problems.

Payment is due in full once the order is made. No manufacturing will begin until full payment is made.
