Render your work

ANIMATION FOR SOCIAL MEDIA

Bring your brand to life

Essentials of animation

Animate a logo

Animate your social media stickers

Create animated banner ads

Design animated titles

ANIMATION FOR VIDEO

Essentials of animation

Bring your brand to life

Remove unwanted objects

Create lower-third graphics

Animate a title reveal

Build a motion graphics package

QUICK START

See what's possible with After Effects

Try adding special effects to a video

IMPROVE WORKFLOW

Get to know the After Effects interface

Create and customize workspaces

Organize, relink, and replace assets

Preview in real time as you make adjustments

Organize your project assets

COURSES

LAYER FOUNDATIONS COURSE

Understand how layers build compositions

Add layers to a composition

Position and distribute layers in a composition

Position 2D layers in 3D space

ANIMATION ESSENTIALS COURSE

Keyframe animation

Animate an object to follow along a path

Create dynamic movement with the Graph Editor

Control animation of multiple layers with parenting

Use expressions to create movement without keyframes

Add realism to animation with motion blur

BUILD AND ANIMATE SHAPES COURSE

Create shape layers

Draw complex shapes

Animate shape layers

Add animation properties to shape layers

Convert Illustrator layers into shape layers

NOTES

FORMAT TEXT LAYERS
Add text with formatting and effects

PAINT, CLONE, AND ROTOSCOPE LAYERS
Paint animated brush strokes

Intro to the Clone Stamp

Isolate elements with the Roto Brush

Refine edges of a Roto Brush selection

Remove unwanted elements with Content-Aware Fill

APPLY AND ADJUST EFFECTS
Fix unusable footage

Organize your project assets

Use masks to control effects

WORK WITH TEMPLATES AND PRESETS
Create Motion Graphics templates

Export a lower third as a template

FIX GREEN SCREEN PROJECTS
Quickly fix faulty green-screen footage

Adjust for shaky camerawork

ADD 3D ELEMENTS USING TRACKING PROJECTS
Insert 3D objects into your compositions

Add 3D text to video footage

ADVANCED ANIMATION TECHNIQUES
Link properties with the Property Link Pick Whip

Introduction to Master Properties

Pushing and pulling changes with Master Properties

Create versions with CSV files

Faster versions using Expressions and Master Properties

Animate graphics with data

FIX MOTION BLUR
Apply motion blur for smoother playback

POSITION AND SCALE LAYERS
Use the Layer Snapping feature

Set scaling quality using bicubic sampling

WORK WITH VR
How to create a 360 video

Basic Object Removal with VR Comp Editor

Stabilize and track 360/VR footage with VR Comp Editor

How to use VR Converter on 360/VR Footage

Apply immersive effects

WORK WITH PREMIERE PRO
Refine masks you applied in Premiere Pro

PROJECTS TO GET YOU STARTED
Animate a title reveal

Animate a 3D title reveal

Render video for YouTube

Animate a lower third

Make a kaleidoscope effect

Add rain to video

Add a glitch effect

ANIMATE LOGOS AND TEXT
Turn captured shapes into motion graphics

Animate a logo for video

CREATE HAND-DRAWN TITLES AND GRAPHICS
Create a handwritten title

Create wiggle paths

Create grungy effects

Create animated graphical flourishes

Animate line patterns

ANIMATE INFOGRAPHICS
Animate a map

Animate an infographic

Animate a camera

Make text write itself

CREATE VFX WITH TRACKING
Create a hoverboard effect

Track facial features to apply precise effects

Rotoscope nature footage

WORK WITH CINEMA 4D LITE
See what's possible with Cinema 4D Lite

Animate 3D objects with tracked footage

Create a cel-shaded logo animation

Create a 3D video game device animation

Create a 3D sports logo animation

DESIGN A MOVIE TITLE
Royalty-free video footage from Adobe Stock

Use Adobe Color themes in After Effects

Tap into a library of available fonts

Design a Hollywood-style movie title
