

Even the luckiest of dogs might be unsure of their collar size. Because of this, we have provided these handy paper replicas to print and cut out, so you and your dog can feel confident in the size you choose to purchase....

- Based on the measurements below, choose which collar size range you think is right for your dog. Then print out this template. **DO NOT SCALE or FIT TO PAGE:**
Small (11" - 14"); Medium (12.5" - 17"); Large (17" - 21.5")
- Each collar template shown below is an exact replica of that particular collar size. The collar width, buckle size, buckle hole placement, and length are actual size.
- Create your paper collar by laying flat and taping the numbered tabs one on top of the other. *Example: If you were making the SMALL collar template, you would tape the "1" tab ON TOP of the corresponding "1" tab.

Wishing you all the luck in the world! Sincerely, The Dublin Dog Co. Crew
