scanoptics
[Intelligent] Data Management

We are a leading global company helping digitize, organize, and optimize data files for B2B, Government and Higher Education. Our Intelligent Data Processing platform, enables your organization to capture data securely, accurately and cost-effectively.

Why Intelligent Digitization

88%
of an organization's data is largely unstructured or semistructured and is never used.

46%
of companies waste significant time daily on paper processes and manual data entry.

70%
of businesses would fail within 3 weeks if they suffered a catastrophic loss of paper-based records due to fire or flood.

Our Services

Some of our Intelligent services include:

- Scanning & Document Conversion
- Secure Document Portal Development
- Digital Mailroom
- System Integration
- Business Process Outsourcing
- Intelligent Data Processing
- Secure Records Destruction/Storage

Markets We Serve

We serve ALL markets including:

- Insurance
- Healthcare
- Finance
- Legal
- Government
- Higher Education
- Manufacturing

We take data that is unstructured then digitize, organize, and optimize the files so they are searchable and easily retrieved through your chosen content management system. Documents previously in paper and outdated digital formats are now accessible anytime, anywhere.

- Scan-Optics has the knowledge, experience and quality output for successful digital transformation initiatives.

- All aspects of the conversion are handled by a dedicated account managers with a deep understanding of the end to end process.

With easy.forward™ Intelligent Data Processing, ALL data has been digitized, searchable and immediately available in PDF format. Increasing accuracy, saving hours of research and retrieval.
