OUR STORY

Ever felt your scrubs are too restrictive? That's because they usually are. As professionals, our uniforms should let us breathe and work easy. Doctors are already stressed due to their hectic work schedules and their workwear should make them perform better instead of being restrictive and uncomfortable. The core idea behind starting Fabel Scrubs is just this, we want you to literally feel like you are working in your PJs. They are that comfortable, soft and stretchy. Designed by doctors for doctors. Our research team had bought hundreds of scrubs from US and UK to identify the perfect material for our scrubs and had travelled all over India for a year to find the right manufacturer to help us realise our vision. It took us another year to develop the garment with the right fit and feel. We are finally proud of what we have achieved and would love for you to experience our world class scrubs.

Our clothes tell a story — about our personality, about our day, about our moods. For doctors and medical professionals, their clothes tell a different story. A more powerful, moving, strong story that inspires people all over the world. At Fabel Scrubs, we empower and celebrate medical professionals of today and tomorrow to be more comfortable as they save lives and weave their own stories. Fabel scrubs is a part of BATTINA Textiles #wearyourfabel

OUR MISSION

Our mission is to provide the most comfortable medical uniforms on the planet. We care about ensuring our doctors have scrubs that enable them to better serve their patients and to support their community through continued healthcare.

Furthermore, we strive to provide customer service that is driven by a desire to exceed expectations. We want to make sure that every time a doctor calls us for buying scrubs, they are greeted by a friendly and helpful team. These values will help us become the best brand for medical scrubs worldwide. We take feedback very seriously and we try to incorporate even the slightest detail if it improves on our product.
