

Extend-Aire

Warranty Protection Program

Coverage You Need From A Company You Can Trust

Covers the Air-End, Oil Sump Tank and Oil Cooler for Most Major Brands of Rotary Screw and Rotary Vane Compressors

**Fluid-Aire
Dynamics**

Compressed Air Done Right!

80/20 Protection for Your Rotary Screw or Vane Compressor

Fluid-Aire Dynamics provides an extended warranty for oil-flooded rotary screw and rotary vane compressors for most major manufacturers. Extend-AireSM will cover the Air-End, Oil Cooler, and Oil Sump Tank for up to **80,000 hours or to 20 years** from the manufacture date (whichever comes first). If any of these major components of your air compressor fail, we will replace or rebuild the component.

How the Program Works

1 Register Your Compressors

We'll need the basics like the make/brand, model number, serial number and the month/year the unit was manufactured.

www.FluidAireDynamics.com/Extend

2 Use Genuine PneuTech Consumable Parts

Maintain your compressors using PneuTech Parts and Lubricants at required intervals.

3 Provide Oil Samples

We will supply oil sample kits for your convenience. Oil samples are required every 6 months or 2000 hours of operation.

Coverage for The Heart of Your Compressor

Air-End

Coverage includes the housing and internal components such as the rotors, bearings, internal gear sets, turn-valve, etc.

Oil Cooler

Coverage against leakage due to failed tubs or welds, and internal plugging.

Oil Sump Tank

Coverage against defects to the sump tank including the sump lid.

Why PneuTech Genuine Parts?

As a leading dealer of PneuTech Rotary Screw Compressors, Fluid-Aire Dynamics provides you with deep industry knowledge, quality assurance as well as world-class customer support.

We extend the confidence and reliability of Genuine PneuTech Consumable Parts through the Extend-Aire Warranty Protection Program that is available for most major brands of rotary screw and vane compressors in use in the market.
