

How to measure shoe size at home

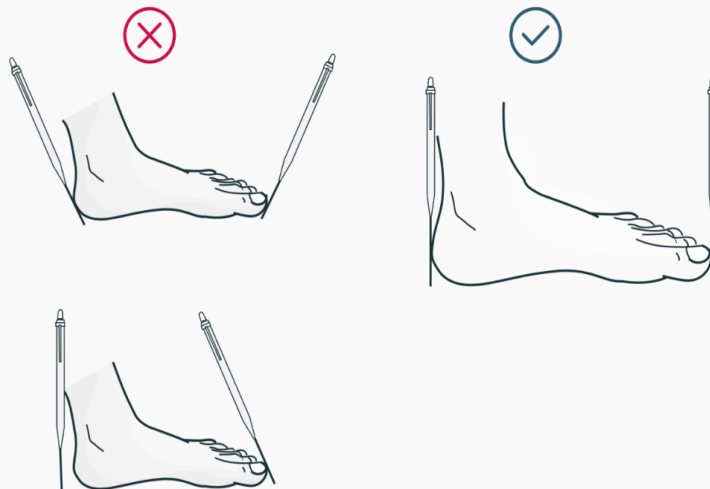

Step 1 - Prepare

Tips:

1. Measure in the evening, when the foot is at its fullest shape
2. Be barefoot or put on socks that you plan to wear with the new shoes
3. Stand on a hard surface

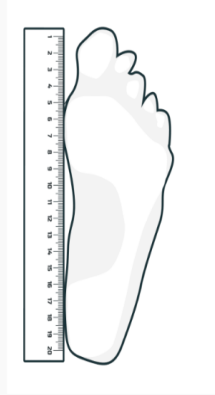

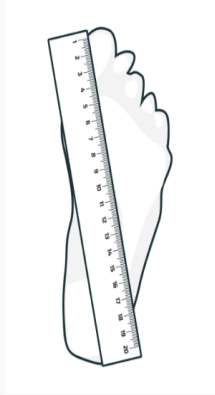

Step 2 - Outline the foot

Tips:

1. ask a friend to help you
2. stand straight with your weight equally distributed on both legs
3. trace both feet because it's normal for one to be longer than the other

Step 3 - Measure foot length

Tips:

1. measure the distance between two most prominent points (from back of the heel to the end of the longest toe)
2. write down the numbers you get
3. use measurements of the longer foot
