# MG108W Operation Mode Switch

- \*The built-in battery will start to power when the back switch is in the non-USB mode (either Mac or Win).  
The keyboard will switch to USB wired mode automatically once USB cable is plugged in.
- \*The switch will complete when the LED indicator flashes for 3 times.

- 1.The key and backlight customization must be completed with the MonsGeek driver.
- 2.Please download the driver from [www.monsgeek.com/download](http://www.monsgeek.com/download).

Note:

MG108W Battery Level Indicator

Low Battery: Slow flashing white LED

Charging: Constant white LED

Fully Charged: LED off

1. MONSGEEK provides One-Year warranty for customers in mainland China. For other regions, please contact your seller (MonsGeek distributor) for specific warranty policy.
2. If the warranty window expires, customers need to pay for repairs. MONSGEEK will also provide instructions if users prefer to repair the keyboard by themselves. However, users shall take full responsibility for any loss happened during self-repair.
3. Disassembling the keyboard without manufacturer/seller's instruction will immediately void the warranty.
4. The return and warranty policy may vary in different platforms and are subject to the specific distributor at the time of purchase.

**Precautions**

Man-made damage is not limited to immersion, falling off, and pulling off the wires with excessive forces, etc.
