GiiKER warrants that your GiiKER hardware product ("the Product") will be free from defects in materials and workmanship for a period of 90 days from the date of purchase ("the Warranty Period"). If a defect in the Product arises under normal and intended use within the Warranty Period, please contact the authorized GiiKER dealer in your country. The authorized GiiKER dealer in your country will, at its option and subject to applicable laws, replace or repair the Product with new or reconditioned parts. This warranty is only valid to the original retail purchaser, accompanied by a receipt or proof of purchase. GiiKER does not warrant that the operation of the Product will be uninterrupted or error-free; b) Defects in consumables, such as stickers or protective coatings designed to diminish over time; c) Defects caused by misuse or failure to follow the product directions, improper installation; product alteration or modification; improper or unauthorized repair; d) Defects caused by accidents, neglect, fire, water, lightning, or other acts of nature; incorrect electrical line voltage, fluctuations or surges; e) Normal wear and tear or otherwise due to the normal aging, other causes beyond GiiKER's reasonable control.

## Declaration of Conformity

GiiKER Technology Co.,Ltd. declares that this product is in compliance with the relevant requirements of European Union 2009/48/EC, Directive 2011/65/EU. This declaration of conformity is published on our website [www.giiker.com/pages/compliance](http://www.giiker.com/pages/compliance).

## EUROPEAN UNION- DISPOSAL INFORMATION

The symbol above means that according to local laws and regulations your product should be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. Some collection points accept products for free. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. Keep these instructions for future reference as they contain important information.

## FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
– Reorient or relocate the receiving antenna.  
– Increase the separation between the equipment and receiver.  
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
– Consult the dealer or an experienced radio/TV technician for help.  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
