# Ultra-Containment Wall®

Modular, hard-walled system provides long-term, high-capacity spill containment

- + Modular wall sections and corners can be easily assembled to form almost any size/shape spill containment area needed.
- + Heavy-duty, 30 mil, textured polyethylene liner provides rugged, impermeable barrier to capture leaks and spills.
- + Creates large, semi-permanent containment areas. Provides much more gallon capacity than shorter walled containment systems.
- + Versatile system can be easily disassembled for reuse at future sites.
- + Unlike some containment systems, the Ultra-Containment Wall is not secured to the substrate so it is perfect use in parking lots, sand, rocky soil, muddy soil, frozen soil or on concrete areas.
- + Made in the USA. Stock/warehousing: Texas.
- + Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175.

Molded-in locking pegs allow systems to be setup quickly and easily without the need for special tools or equipment.

Large clips (included) hold the liner in place. Excess liner can be trimmed if desired.
