Resins

GP Ortho Laminating Resin is a general purpose orthophthalic bonding and laminating resin. It cures with surface tack for better bonding between layers and is ideal for mold building and inexpensive laminating.

ISO Laminating Resin is an isophthalic bonding and laminating resin that cures with surface tack for better bonding between layers. It provides better bonding, strength, and moisture impermeability.

Finishing Resin is a surface curing resin that cures without a tack for a hard sandable finished surface.

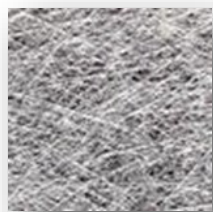

Vinyl Ester Resin has exceptionally high physical properties including low water absorption rates, high strength and toughness values and heat distortion temperature.

Reducers and Additives

Styrene Monomer is a thinner used with gel coat when spraying is the means of application. Styrene may change the color when mixed in. A small test sprayed in an inconspicuous area is recommended. Do not reduce more than 20 % by volume.

Duratec Clear produces a non-was, tack free, high gloss finish when mixed 50/50 in the final coat. **Hazardous shipping fees apply for gallons.**

Cabosil/Airosil is used to thicken gel coat or resin to provide non-sag coating or turn gel coat into a paste.

Webbing Solution will lay our a pattern that looks like webbing. Mix 50/50 with gel coat and spray with a siphon cub gun keeping the breakup air turned off.

Spectrum Color Mixing Boards are 12" x 12" non-absorbing mixing palettes. They are great for mixing filler, fiberglass and more. Each sheet is non-porous and disposable.

F404097.....	Each.....	\$14.25
--------------	-----------	---------

Fairing Putty/Filler 50/50 Marine Grade is a high strength polyester putty used for bonding and fairing prior to gel coat application. Ground fiberglass fibers and high quality resin provide excellent surface preparations for marine applications.

Putty/Fiber Filler is a fiberglass strand reinforced and promoted putty for structural repair and reinforcement.

AD-Tech White P-14 Polyester Filler is a two-component filler system which yields a smooth, creamy, thixotropic, and workable paste with superior handling, set-fast characteristics, and dimensional stability.

AD-Tech Black P-17 Polyester Filler is a high heat resistant filler set-fast system and has uses where potential exposure to elevated temperature sup to 230°C/446°F have to be tolerated either for short term or continuous periods.

AD-Tech Polyester Filler Hardener is a finely divided, non separating consistently smooth Benzoyl Peroxide paste in a non-phthalate plasticizer system. Available in Black, Red, and White. Use 1 oz per Quart.

A patching additive used to reduce the problem of halo marks and to improve the cure of the repair so that buffing and polishing become an easier process. Patch Aid is available in three grades—slow for overnight and large area repairs, fast for the same day repair, and speed also for same day repairs. Armorcote®, Armorflex®, and LVOC gel-coats require either speed or LVOC Patch Aid.

3M™ Perfect-It™ EX AC Rubbing Compound is our best-performing rubbing compound for removing P1200+ sand scratches and surface defects before polishing, even on the latest clear coats. It is formulated to perform in all conditions, including high heat and humidity, without sticking to panels or leaving film residue. It delivers a longer working time, yet still reduces sling for easier cleanup.

F7536060Q.....Quart.....\$53.89
 F7536061G.....Gallon.....\$167.06

3M™ Perfect-It™ EX Ultrafine Machine Polish quickly and completely removes ultrafine swirl marks, even on difficult dark-colored vehicles. It stays wet longer, letting you use less material for a refined finish. Yet it also holds better on the pad for reduced sling and faster cleanup.

F7506068Q.....Quart.....\$44.72

3M™ Perfect-It™ EX Machine Polish is the highest-performing machine polish we've ever introduced for removing compound swirl marks in collision repair. It stays wet longer, letting you use less polish for the same refined finish.

F7506094Q.....Quart.....\$37.78

3M™ Marine Adhesive Sealant 5200 Fast Cure is a one-component, high-strength, moisture-curing, gap-filling polyurethane for permanent bonding of aluminum, wood, gelcoat and fiberglass.

3M™ Perfect-It™ Gelcoat Light Cutting Polish + Wax is formulated to quickly remove light to medium oxidation, light scratches, swirl marks and other minor defects from gelcoat. This polish removes scratches of P1500 or finer and leaves a polished wax finish without swirls even in difficult dark-colored gelcoats.

3M™ Perfect-It™ Gelcoat Medium Cutting Compound + Wax combines medium cutting power with durable wax for professional-grade one-step gelcoat compounding. It removes major defects and scratches P1000 or finer and leaves a glossy wax finish that helps protect against weathering and may not require polishing.

3M™ Perfect-It™ Gelcoat Heavy Cutting Compound restores the lustrous beauty of boats by eliminating oxidation, scratches, scuff marks and other surface blemishes from gelcoat. Our fastest-cutting product for gelcoat, this compound removes P800 and finer scratches and leaves a high gloss finish ideal for cutting polish and wax.

3M™ Perfect-It™ Boat Wax is the final, brilliant step in achieving a truly professional marine finish. Its blend of pure Brazilian carnauba wax, silicones, polymers and resins brings out an extraordinary gloss and provides durability against the elements. The liquid wax formula is easy to apply and remove even on warm surfaces, and is safe for gelcoat, paint, fiberglass and metal.

3M™ Spray Gun Systems

Say goodbye to the springs, o-rings, nuts, seals and all the other tiny spray gun parts that complicate your life in the body shop. Say hello to the 3M™ Accuspray™ ONE Spray Gun System: a lightweight, cost-effective solution for applying paint and other coatings in collision repair. It features a one-piece composite spray gun body (no maintenance kits) and a series of reusable, replaceable atomizing heads. This makes for true versatility: when the performance of a spray nozzle starts to decline, simply remove it and snap on a new one. Atomizing heads are available with a variety of fluid tips sized for the full range of automotive and industrial coatings, from base and clear coats to primers to gelcoats and enamels. A single kit provides everything you need to start spraying - with less pain, and more profit.

Product No	Series	Size	Price
F7516578	Legacy	Each	\$209.68

3M™ Accuspray™ Atomizing Head Refill Packs are designed specifically for use with 3M™ Accuspray™ ONE Spray Guns. This selection of replaceable heads makes for the incredibly fast, efficient application of low-, medium- and high-viscosity materials from one gun. Technicians simply remove and replace the head for the performance of a new spray gun on demand. See-through heads are easily cleaned and reused.

Polishers

Rupes BigFoot LHR21 Mark III Random Orbital Polisher proves once again that RUPES BigFoot is the gold standard by which all professional polishing tools should be judged. The refined chassis and ergonomic enhancements improve upon the original LHR21 design to provide improved performance and operator experience.

P21.....Each.....\$450.00

Rupes BigFoot LTA75 Triple-Action Orbital Polisher is a compact pneumatic polisher for edgework and compact spaces that uses an innovative epicyclic gear-set to produce torque and consistency of movement never realized in a pneumatic tool previously. Ideal for a variety of industries including industrial, marine, aviation, automotive detailing, and AOEM.

P75.....Each.....\$435.00

Rupes Random Orbital Compounds are specially formulated for the random orbital and triple-action polisher movement, each formulation uses premium abrasives, specific lubrication systems, and is designed to work with its corresponding color-coordinated pad

Rupes Wool Pads are the perfect blend of old-school polishing and cutting-edge advancement for maximum results.

Compounds & Polishes

Aqua Blue 100 Buffing Compound is a fast cut water based compound used to remove heavy and mild oxidation, deep scratches, scuff marks, blend lines & finishing gel coat repairs. Use after 600 wet/dry sanding. Wax and silicone free so the gel coat is not affected and pads won't gum up

Aqua Blue 200 Finishing Compound is a non-abrasive water based cleaner and polish for removing wet sanding and compound marks while producing a high gloss shine. Wax and silicone free and will not stain gel coat. Pads will not gum up.

3M™ Finesse-It™ Polish is designed to remove minor scratches and light oxidation while producing a high gloss "wet look" finish on fiberglass and painted boats. Product contains no wax or silicone so it will not gum up your rotary buffer.
