

JOHANNA STUDIOS

Size Guide: Rings

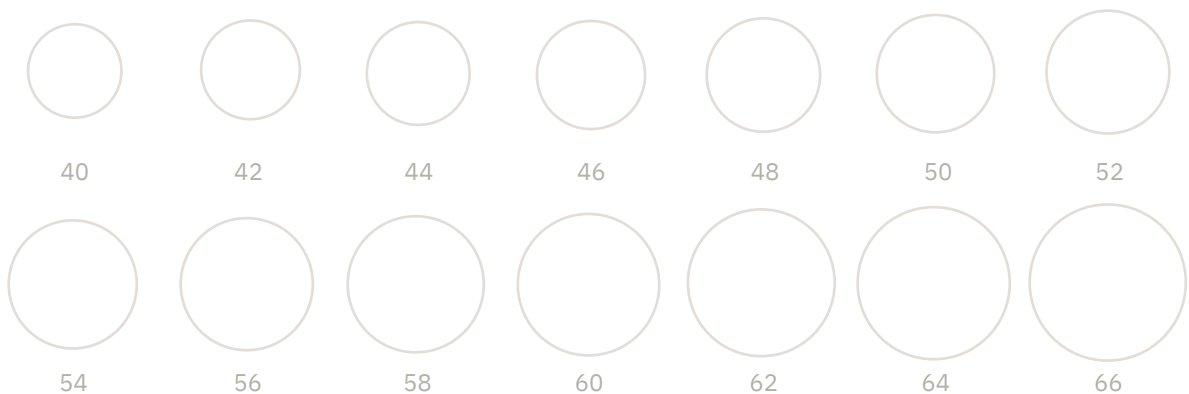

Step One

To find out which size fits you best, you can print out this page. Then you can place your credit card in the space provided to check that the printout, and therefore our scale, is the right size.

Place your credit card on this surface and check if the height is identical.

Option One

To find out which size fits you best, you can print out this page. Then you can place your credit card in the space provided to check that the printout, and therefore our scale, is the right size.

Option Two

If you don't have a matching ring at hand, you can cut out our measuring tape and cut the dotted line. Now you just have to put the tape measure around your finger and read your ideal ring size.

If your size cannot be measured exactly, we recommend you to choose the larger size.

1	40	8	54
2	42	9	56
3	44	10	58
4	46	11	60
5	48	12	62
6	50	13	64
7	52	14	66

Cute the dotted line. Read off your perfect measurements from it.
