Enjoy your new keyless freedom

KEYLESS ENTRY MADE EASY

The new **secuENTRY easy** series from **BURG-WÄCHTER** combines modern technology with maximum convenience.

Opening doors has never been so smart and so flexible! What could be more convenient than opening the house or apartment door with a **fingerprint**? After all, you always have your finger with you! But that's not all: The door can also be opened remotely using the **secuENTRY Bridge**. Quite easy, quite smart. Of course the secuENTRY easy smartlocks can also be opened with a **pin code**, **smartphone app** and **radio key**. This series also includes an exclusive **mechanical emergency lock**.

Off to the office or to visit friends: In future, you will no longer need to remember your front door key when you leave the house.

secu **ENTRY** easy

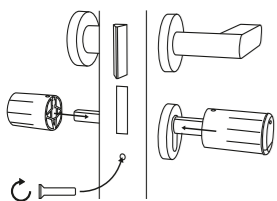

Technology meets convenience

secuENTRY easy – THE SMARTLOCK FOR EVERY REQUIREMENT. INTUITIVE OPERATION, EASY TO INSTALL.

- ✓ **secuENTRY easy set* with keypad and cylinder for house and interior doors.** Choose between the keypad with **fingerprint and code opening** or just with **code opening**.
- ✓ For convenient control of opening and closing, assigning codes and many other settings, use the free **BURGsmart App for up to 15 users**.
- ✓ **Secure data transmission and wide range** due to modern and energy-saving Bluetooth technology 5.2 LE with AES encryption.
- ✓ **EXCLUSIVE TO BURG-WÄCHTER!** The **emergency lock** enables you to open the lock with the key provided, should anything go wrong.
- ✓ **Easy installation** in just a few minutes without drilling or wiring and no internet connection required.

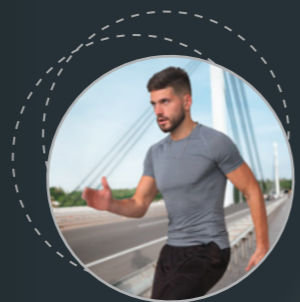

EXCLUSIVE TO BURG-WÄCHTER!

IT JUST FITS! NO MEASURING NECESSARY! THE secuENTRY easy CYLINDER FLEXIBLY ADAPTS TO ALL DOORS WITH THICKNESSES OF UP TO 118 MM.

It's really easy:

Remove the old cylinder, replace it with a secuENTRY easy cylinder and adjust it to your door thickness, tighten the screw. Done!

Off you go to your workout – you don't need a key!
And when you return, simply open the door by code or finger.

Your new set:

secuENTRY
Pin code or combined fingerprint/pin code keypad (photo)

secuENTRY easy
Cylinder with emergency lock

Optional opening method:
secuENTRY
radio key

You assign personalised access codes for cleaners or tradesmen.

Via the BURGsmart app, you always know when your door was opened by whom and can also easily revoke locking authorisations.

Available on the
App Store

ANDROID APP ON
Google play

Everything from one source – with the free BURGsmart App! Open, close, assign codes and manage access securely and fast.

The guests are already at the door and you are still on the way?

No problem: You can open your door remotely with the secuENTRY Bridge.

Your Smartlock does much more!

secuENTRY BRIDGE AND PC SOFTWARE: FOR MANY OTHER SMART APPLICATIONS*

Simply opening a smartlock directly at the front door is one thing. But the secuENTRY easy door locks can do much more. **When used in combination with the secuENTRY Bridge integrated into the WiFi, you can conveniently open the smartlock remotely**, e.g., for a tradesman, the parcel service or your guests who have arrived early.

The Bridge receives the opening signal from your BURGsmart App and converts it into an **encrypted Bluetooth signal**. Regardless of where you are. Your guests or a service provider can already step inside. An additional feature: **The secuENTRY Bridge also takes over the "handing over of keys" for your holiday home.** With the BURGsmart app and the bridge, you assign an individual user code for your holiday guests.

- + **The secuENTRY Bridge is the "remote control"** for your secuENTRY easy door lock. This allows you to open your door conveniently from a distance. So easy!
- + If you want a little more: **With the secuENTRY software pro**, you can manage up to 2.000 users and 300 fingerprints.

Award-winning! The secuENTRY Bridge for remote door opening was awarded the PLUS X AWARD for operating convenience, high quality and functionality!

ALWAYS THE
SAFE CHOICE!
