PRODUCT DESCRIPTION

Application:

The BWNC-442DSIA speed dome leaves hardly anything to be desired. It is delivered including power supply and wall mount. For mounting on corners or masts only the SNCA-CM-4670 or SNCA-PM-4660 are required. The technical equipment of this IP camera leaves hardly anything to be desired: The resolution of 4 megapixels of the LowLight sensor delivers excellent images during the day and night (B/W) and twilight. The integrated optical 45x motorized zoom lens with a focal length of 3.95 - 177.7 mm ensure very good images in every shooting situation. shooting situation. Even at night, the speed dome, thanks to the light-sensitive sensor and the integrated IR illuminator (up to 150m). Thanks to DC controlled motors, the speed dome is particularly smooth and moves very smoothly, e.g. during auto-tracking, and very quietly. Latest AI analyses enable 24/7 monitoring. The dome can alternatively be powered via PoE+.
