

## Pricing

Everything (except dehairing and fleeces that are only being washed) are charged on the finished outgoing weight and include all processing needed to get it to that stage.

Prices do not include shipping and handling or applicable taxes. Prices may be subject to change without notice. Please understand that our spinning machine requires a minimum of 3-3.5 inch consistent staple length to spin yarn. If your fiber is not long enough or does not have a consistent length, it will be returned as roving.

\*There is a Minimum Charge for small fleeces. We handle each fleece separately, so it doesn't matter if your order is one fleece or ten.

\*-2lb incoming weight minimum-anything under 2 lbs there's a \$15 set up fee. Fleeces/orders under 1 lb finished weight will be charged for a minimum of 1 lb-

## Credits Available

\*\$0.50 credit per usable cone returned \*\$2.50 per finished lb for fiber sent to the mill pre-washed. If prewashing your fiber it must be grease free or it will have to be re-washed. Do not use conditioners when prewashing-if you need you can add a bit of vinegar to your final rinse. I will inspect each fleece as it is checked in to make sure they are clean enough to run through our machines.
