Technical and Product Description	<p>Introducing Bellhop Wall Up, a new wall sconce addition to the success story. The story began in 2017 with the portable, rechargeable Bellhop Table as the first model, which has since expanded to meet most of the home's lighting needs.</p> <p>The new wall light features the same form that distinguishes the family, yet the only crucial difference is the lighting direction. This model's diffuser can be positioned inverted to provide uplighting as well as downlighting.</p>
