

GIRAVOLTA 1799/130

DESIGN:
ALBERTO BASAGLIA NATALIA ROTA NODARI

Giravolta is a wireless lighting distinguished by a contemporary design and suitable for outdoor environments. Two discs in plastic material, the base and the LED diffuser which rotates 360 degrees and directs the light, are surrounded by an arc made in extruded aluminium to create a practical handle. The luminaire incorporates the LED board, the lithium battery, the micro USB device for recharge and the power button. A cast-iron ballast at the bottom base ensures its stability. Height 1300 mm.
