

Rediscover what you love

Tailor your listening experience with Audeara

Why Audeara

Audeara is a global hearing health leader, specialising in innovative listening solutions for people with hearing challenges.

We are passionate about redefining hearing health, with a focus on products that deliver world-class, tailored listening experiences.

Our products are designed to help you feel at ease on the phone and during video calls, and relax into your TV shows, music or games.

With Audeara, you can rediscover the joy of listening to what you love.

- ✓ Registered NDIS provider
- ✓ Department of Veteran's Affairs (DVA) Rehabilitation Appliances Program (RAP) AA04 approved device
- ✓ Australian Government Department of Health Hearing Services Program (HSP) approved device

A-02 TV Bundle

Purposefully designed to improve your listening experience while watching your favourite show, the A-02 TV Bundle includes Audeara's A-02 Headphones and TV Streamer.

Headphones

The A-02 Headphones use a health-check algorithm to tailor sound to your unique hearing profile. Watch your favourite TV show, FaceTime with family, game with friends or listen to music with sound personalised to you.

With clearer sound rather than louder sound, the Audeara A-02 Headphones are the ultimate listening device for hearing health.

TV Streamer

A compact and easy-to-use audio streamer that plays audio wirelessly from your TV or sound system. The Streamer is pre-paired to your Audeara Headphones, so you can catch up on that latest episode without needing subtitles.

Two Audeara headphones can pair to the TV Streamer, so you and your partner can both enjoy your favourite show with tailored listening experiences.

Personalised Sound

Tailor your headphones to your hearing
