

First Defense Technology™ Gel Tube

ImmuCell

Nutritional Health Supplement for Newborn Calves Containing Specific Globulin Proteins.

Guaranteed Analysis:

Crude Protein, Minimum.....	9.00%
Crude Fat, Minimum.....	33.00%
Crude Fiber, Maximum.....	0.08%

Ingredients:

Vegetable Oil, Glycerin, Sucrose, Dried Whey Protein Concentrate, Soy Lecithin, Dextrose, Natural and Artificial Flavors, Corn Starch, Calcium Carbonate, FD&C Blue #1 Aluminum Lake

Directions:

For best results, First Defense Technology Gel should be administered to calves orally, within 12 hours after birth. Remove the tube cap, placing the tip at the back of the throat. Initiate the plunger and squeeze the tube contents into the calf's mouth, ensuring the calf swallows all the gel.

Refrigerate or store in a cool place (35-46°F)
