Myco Silencer® ONCE

Intervet/Merck Animal Health

Mycoplasma Hyopneumoniae Bacterin

This product has been shown to be effective for the vaccination of healthy swine 3 weeks of age or older against pneumonia caused by *Mycoplasma hyopneumoniae*. Duration of immunity for at least 6 months has been established following one 2 mL vaccination. Duration of immunity following two 1 mL vaccinations has not been established. For more information regarding efficacy and safety data, go to productdata.aphis.usda.gov.

DOSAGE AND DIRECTIONS:

Shake gently and using aseptic technique administer intramuscularly a single 2 mL dose. Alternatively, administer intramuscularly a 1 mL dose at 3 weeks of age or older followed by a second 1 mL dose 2 to 3 weeks later.

DURATION OF IMMUNITY: Vaccination with a single 2 mL dose has been shown to be protective for up to six months.

CAUTION:

Store in the dark at 2° to 8°C (35° to 46°F). Do not freeze. Use entire contents when first opened. Do not mix with other products. Use only in healthy swine. This product has not been tested in pregnant animals. Do not vaccinate within 21 days before slaughter. If allergic reactions occur, treat with epinephrine. In case of human exposure, contact a physician immediately. Contains gentamicin and thimerosal as preservatives.
