Fitting Recommendation
The stretchy elastic nature of Slipfree® shoes means that they span more than one-foot size which is great news for those fast-growing children's feet.

We know it's always tempting to buy bigger on children's shoes to give them some room to grow, but with Slipfree® shoes and their stretchy design, we would recommend to buy true to your child's foot size and if in-between sizes please refer to the sole length measurements below which can be used against the length of your child's sole, top of big toe to heel to help guide further.
