TIGWARE MAMMOTH 360

Product Information Sheet

TIGWARE MAMMOTH 360 Melbourne Australia

Sizes SD / HD

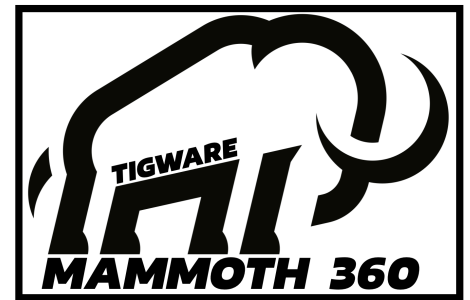

TIGWARE'S MAMMOTH 360 unit is fully compliant.

Colour: Black / Zinc

Material: Steel Construction

Aussie Innovation

Use with TIGWARE SSP Plinth for Stainless Steel work.

Also for working at heights it is strongly recommended to use TIGWARE'S Safety Lanyard.

General Information & Instructions

TIGWARE'S MAMMOTH 360 is Engineered to be used on Flat and or Circular surfaces.

Its totally universal and can also be used inverted and at any angle.

There's a Threaded Port at the rear of the MAMMOTH neck to facilitate the Safety Lanyard

Mammoth 360 TIG Hooks

OPTIONS

SSP Plinth for Stainless Steel Work

Use the SSP Ratchet Strap to secure the SSP Plinth to any Stainless Steel Pipe work and mount the MAMMOTH 360

Safety Lanyard for Working at Heights

The 6mm Eye Bolt at one end of the Safety Lanyard should be connected to the Neck of the MAMMOTH 360 and conversely secured to the Work. 3-Crimped Loops Enable Full Versatility.

All moving joints have been set with LOCTITE 263 to maintain joint stiffness
Joint stiffness is required to allow easy mounting and dismounting of the TIG Torch during use.

Enjoy you're new product and please let me know if you have any problems.
