iPhone Ringtone installation instructions for Mac users

Download the .M4A ringtone file to your computer. Connect your iPhone via the Lightning-to-USB cable, launch Finder, and then look in the sidebar under "Locations" for your iPhone. Click on our iPhone to launch the sync window, and then click "Trust" and enter your iPhone passcode if asked to do so. While you're there, enable the "Manually Manage Music, Movies, and TV Shows" option on the General tab.
