

Quick Start Guide

HOT TUB CLEANING & DETAILING SUPPLIES KIT

1

ecoTUB Spa Clean:

All surface cleaner for spa shell, cover, cabinet, pillows, etc. No need to drain spa to remove tub ring - runoff actually improves spa water quality. Use with Spaange.

2

303 Protectant:

Restores color and prevents UV damage to exterior cabinet surfaces and vinyl covers. After cleaning, spray surface, then distribute evenly with Spaange. Repeat monthly.

3

303 Outdoor Fabric Guard:

Restores water repellency and prevents UV fading & damage to outdoor fabrics and WeatherShield spa covers. After cleaning, spray surface. Repeat monthly.

4

Gel Gloss Shell Polish:

Beautifies spa shell. After cleaning, apply directly to dry surface. Rub and distribute a thin, even coat with Spaange. Allow to dry slightly, then buff with a soft dry cloth.

5

Spaange Scrubber / Applicator (2-Pack):

Orange side is for non-scratch surface cleaning for use with Spa Clean. Yellow side is an absorbent sponge applicator for use with Get Gloss and 303 Protectant.

6

Spa System Flush:

Super-cleans inner pipes, pumps & jets. When time to change water, remove filter, add half a bottle. Run pumps for a few minutes or overnight. Drain and refill spa.

7

Power Soak Filter Cleaner:

Powerful deep cleaner. Dissolve 1/2 cup into water bucket. Soak filter at least an hour or overnight (flip taller cartridges). Repeat at least every 3 months.

8

ecoTUB Filter Spray:

Instant filter spray cleaner for use with cartridge cleaning tools or when soaking is not practical. Spray filter, wait at least 5 minutes, then rinse. Repeat monthly.

9

ZorbO Floating Oil Scum Absorber:

Hi-tech polymer with flow-thru design wicks-up oily film and inanimate scum. Remove wrapper and float in hot tub. Replace every 3 to 4 months.
