Multipurpose Repair Plastic

Industrial
- Seal leaks

Vehicle
- Fill cracks

Hobbies
- Form shapes

Household
- Glue parts

Cast - Glue - Fill - Form

DESCRIPTION: *Plast-aid* forms a strong, waterproof, durable plastic with thousands of uses in about 15 minutes. As it cures, it changes consistency to be used to cast, glue, fill and form. It chemically fuses to many plastics such as ABS, acrylic, and PVC, and those which becomes sticky after testing with a drop of *Plast-aid* liquid. Will not chemically bond to all plastics such as polyethylene or nylon. *Plast-aid* mechanically bonds to rough surfaces such as wood, stone, and concrete.

DIRECTIONS: 1) Clean surfaces to be joined or repaired. 2) Pour powder in cup. 3) Add liquid to powder until powder is saturated and mix. 4) To color, add artist acrylic 5) Apply when consistency suits use.

WARNING: LIQUID IS FLAMMABLE AND MAY IRRITATE BY INHALATION, SKIN OR EYE CONTACT, AND IF SWALLOWED. POTENTIAL SKIN SENSITIZER. PROLONGED OVEREXPOSURE MAY LEAD TO KIDNEY OR LIVER DAMAGE. Contains Methyl Methacrylate. Keep away from ignition source. In case of eye contact, flush with water. Avoid prolonged skin contact. If irritation occurs get medical attention. If swallowed, drink two glasses of water and get medical attention.

**USE ADEQUATE VENTILATION.
KEEP OUT OF THE REACH OF CHILDREN.**
