## Magnetic Holder Lock Pivot Arm Adjust **Metal Plate** (Included) Step 2 Strong N40 Magnets Inside

## **Product Accessories**

Cleaning Wipes

Rectangular Metal Plate

Plate

Circular Metal Transparent Protective Film

## **Installation Steps**

Remove the White Transparent film.

Apply the clear film to the back of your phone.

Remove the white sticker from the metal plates.

Paste the plate at the back of your phone cover

(Or) Install it inside your phone cover.

Remove the strip from the bottom of the suction cup.

Use the Alcohol Swab to clean any Oils, Polish, Dust Particles from the dashboard surface.

Note: Clean it properly for best & long lasting results.

**USE (DASHBOARD)** Let the surface dry & fix the holder at your suitable angle. Apply pressure for hard grip.

**USE (WINDSHIELD)** 

Wait for 30 mins after fixing. Tap your phone on top of the holder and you are ready to go.

## How to use the square metal plate?

Paste the metal plate at the backside of your phone or phone cover. (Use the square film)

(Or) Paste it inside your phone cover. (Make sure the phone cover is not too thick)
