Casambi Mesh Wireless Time Keeper With Battery Backup

Overview

- Master Timekeeping Node
- Surface Mounted Non-Metallic Enclosure
- Casambi Wireless Mesh
- Line Voltage Input (120-277 VAC)
- 24 Hours of Battery Backup During **Power Outages**
- Unit also Includes Range Extender (PSC-RET)
- ioXt Alliance Cybersecurity Certification

Suitable For Interior or Exterior Use

Summary

Product Type: Time Keeper with Battery Backup

Input Voltage: 120 to 277 VAC, 50/60Hz

Max Bluetooth Range¹: 900ft (274m)

Mounting: Surface Mounted Enclosure

Operating Temperature: -22°F to 158°F (-30°C to 70°C)

Storage Temperature: -40°F to 185°F (-40°C to 85°C)

Relative Humidity: 90-95% non-condensing at 30°C

Color: Gray

Warranty: 5 years

Note:

1. Bluetooth Range is highly dependent on the integration of fixtures, surrounding environment and conditions. It is recommended to conduct testing for range accuracy.

Applications

The PSC-TKP-200-BLE-CB provides reliable time synchronization for each node of the wireless mesh network.

PSC-TKP-200-BLE-CB features a battery backup unit to provide continuous time operation during power outages. The battery is maintained by the integrated Charge Keeper and maintains master timing for up to 24 hours.

The Time Keeper also features an integrated Range Extender to be used for maintaining mesh quality across long distances.

Wireless Control Operation

Casambi Wireless Mesh Controls: The controller connects to a Low Energy (BLE) wireless mesh network via a mobile app, available as iOS or Android, to allow initial setup and subsequent parameters adjustments.

See the mwConnect Casambi Commissioning User Manual for more information.
