## S E A T I N G S Y S T E M S

Introducing the most comfortable and versatile off-highway/ industrial seat. In fact, Grand LX seat with integral serpentine springs isolates more vibration than other semi-suspension seats on the market.

Ideal for numerous applications, the Grand LX sets a new standard in seating. For comfort, we provide a wide, deep seat cushion and maximum easy-rear-view back height. For versatility we developed fixed, folding and locking back models with easily replaceable cushions. For safety, we offer hip or shoulder\* restraints and seatbelts.

### s p e c i a l f e a t u r e s

Optional fore/aft adjustment, seatbelts and hip restraints

Custom corporate embossed logo and optional fold-up armrests

Optional folding or folding/locking back

Pat. Pending #5,601,333.  
Other patents pending.

Our product design team has nearly 200 years of experience, numerous patents for seating innovations and uses the Pro-Engineer CAD system to create advanced seating designs. For special applications, we can combine our products to meet virtually any requirement; or we'll work with you on custom design, testing and prototypes.

Through a Total Quality Management (TQM) approach, we are able to give you one of the best warranty programs in the industry.
