MSG65

Premium comfort in a compact size

MSG65

Technical data

The MSG65 is ergonomically designed with a low-profile mechanical suspension that significantly reduces vibrations in compact-equipment applications.

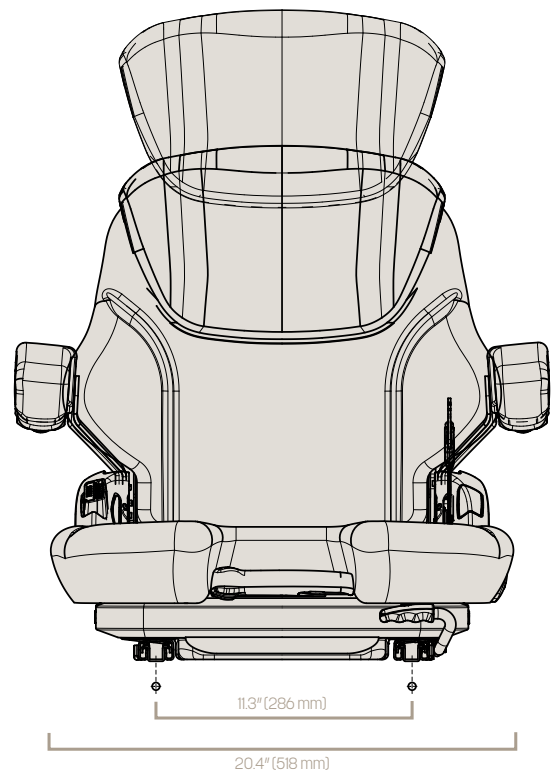

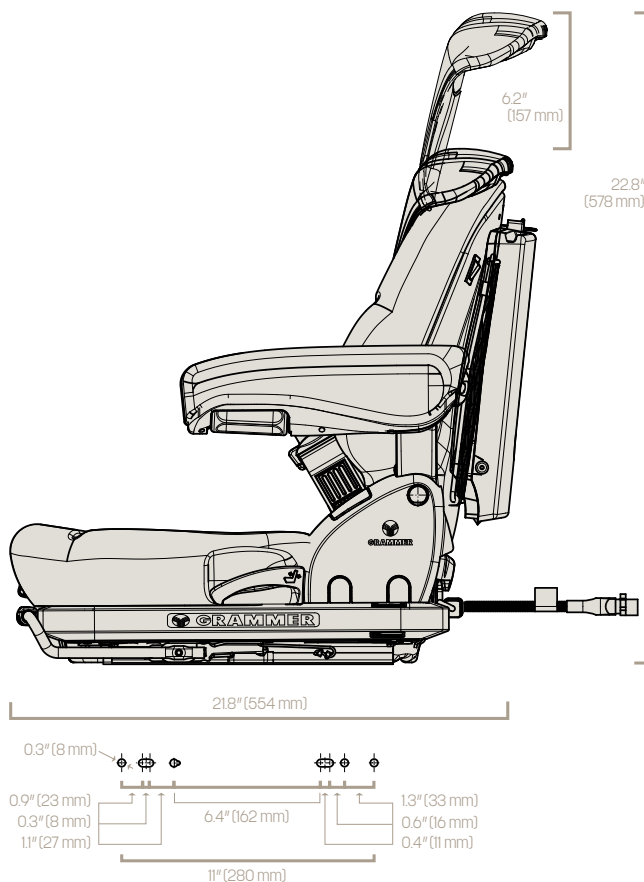

Features & Benefits	MSG65
1 Low-profile mechanical suspension	●
2 Suspension stroke: up to 2.3" (60 mm) or 3.1" (80 mm)	●
3 Mechanical weight adjustment: 110 – 375 lbs. (50 – 170 kg)	●
4 Fore/aft adjustment: to accommodate all body sizes/types	●
5 Lumbar support: easily adjusts for optimal back support and comfort	●
6 Backrest extension: adjustable to support upper back/neck	○
7 Backrest angle adjustment: allows to recline to your comfort level	●
8 Seat cushion width: 20.4" (518 mm)	●
9 Swivel: allows better view of rear equipment and improved cab mobility	○

Features & Benefits	MSG65
10 Retractable seat belt: safety feature	○
11 Adjustable or foldable armrests: reduce load on the spine	○
12 Document box or net: to store manuals/documents	○
13 Fore/aft isolator: dramatically reduces horizontal vibrations and prevents jolts from jarring the back	○
14 Operator presence switch: safety feature	○
15 High-back or low-back seat top	○
16 Seat heating: eliminates cold stress and positively influences metabolism and mental state	○
17 Complies with FEM 4.003 (for forklift trucks)	●
18 Complies with ISO 6683 (for earth-moving equipment)	●
