

NBM-3000 Series Bill Validator

Designed to simplify your business through reliable, field-proven performance.

Vertical Sensing

Magnetic head and optical sensors are positioned away from dirt and protected from salting, resulting in longer life and fewer service calls. Vertical configuration enables easy cleaning, if required.

Anti-Salting System

Built-in protection includes water drain and no electronics in lower chute; saltwater never reaches bill path or electronics.

Pullback, "Yank Cheat", Protection

Motor-driven shutter remains closed when in standby mode, protecting validator from salting, vandalism and cheating.

Unique Bill Stacking Method

Two cam design stacks more bills in less space than conventional validators.

High Acceptance Rate

\$1, \$5 Bills and Coupons.

Optional Security Bezel

Metal bezel protects validator from vandalism. Available factory-installed or as a retrofit kit.

All-Plastic Construction

Lightweight, easy to clean and service.

Swing-Open Stacker

One latch opens bill stacker, making it easy to collect bills.

LED Diagnostics

Indicates status of validator, making field service easier.

Two-Belt Bill Transport

Contributes to longer belt life and easier servicing —system rated at over 200,000 operations.

Warranty

Limited 2 year warranty.

Conlux ... Simply the right choice

Conlux ...
the MEI value brand of bill and
coin validator products

MEI is ISO 9001:2000 Certified

Simple operation.
Maximum durability.

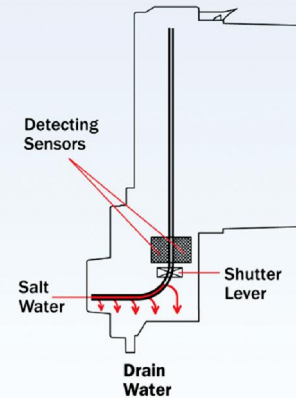

NBM-3000 Specifications

Interface	Multi-Drop-Bus (M.D.B.)

Power Consumption	Standby 0.30A or less
Operating State	Motor Operation 0.60A or less Peak Max. 4 sec 1.20A or less
Operating Temperature Range	5°F (-15°C) to 140°F (+60°C)
Insulation Resistance	20M Ohm or more
Weight	400 Stacker: 2.24 Lbs. (1.02 Kg.) 700 Stacker: 2.48 Lbs. (1.12 Kg.)
Dimensions	400 Stacker: HxWxD: 10.92" x 3.62" x 5.59" (277.3mm x 92.0mm x 141.0mm) 700 Stacker: HxWxD: 10.92"H x 3.62"W x 7.16"D (277.3mm x 92.0mm x 181.9mm)
Pullback Prevention	Shutter System

"We have used Conlux coin mechs and validators since June of 2001. I have not come across another brand as reliable and inexpensive as Conlux. Even in the dirtiest conditions, you can count on Conlux to work every time. I would highly recommend their products to everyone in the vending industry."

About the Conlux product line

Conlux is the MEI value brand of bill and coin validator products, acquired by MEI in 2003. The Conlux brand is the leading payment systems product in Japan, and has been distributed in North America since 1985. Established in Japan in 1967 to product and sell coin mechanisms for vending machines, Conlux products are designed to simplify business through reliable, field-proven performance.
