# HORMES JELL

Negative Ion Cream

Use for facial and neck beauty,  
and on the body before going to sleep

- Negative ion powder has cell-activating hormesis effect
- Phytosteryl macadamiate has moisturizing effect
- Mulberry extract, a tyrosinase activity inhibitor, reduces melanin production
- Panax ginseng extract gives skin tension and elasticity
- Rosemary oil has calming effect

The jell formulation has minimal  
excess surfactant so it stays moist  
to keep your skin young and vibrant.

Actual size

**Generates over 1,000  
negative ions per cc**

Negative ions and hormesis  
together stimulate the activity of cells.

\* Measured with EB-15 ion counter
