

TENDER OPPORTUNITY for supply and install of solar panels - JUNE 2022

Background – Great British Trading Ltd work within the dairy industry and have recently relocated to expand their own brand operations. Consumer base is predominately the UK.

A recent business review has identified the strategic need for improvements towards energy efficiency at the new premise. This will aid in the process of making our business more sustainable leading a move towards renewable energy sources.

Project Overview – Following recommendations from our energy assessment, Great British trading are looking to install solar panels and two EV charging points. The installation of the panels will be on the roof of the warehouse and an appropriate fixing system will be required without compromising the existing roof.

Project Scope – The warehouse roof is circa 4500sqft and 50% of the roof is orientated 145degrees SE. We are looking to install a solar pv system capable of supporting our current daily usage which includes cold storage refrigeration. The site currently averages 1200kWh use per calendar month. Suppliers are invited to provide the most cost effective and efficient solution. Proposals to include prices for supply, installation, and commissioning. Examples of similar installations undertaken in the past three years to demonstrate capability to design, install and commission this project.

Selection Criteria – The contract will be awarded to the most cost-effective tender that meets the requirements of the company and can be delivered within a reasonable timeframe

Payment Terms – Payment will be made in stages and agreed as part of the contract discussions. Anticipated payment terms to be included in the prospective supplier's quotation

Cost – To be stipulated in the prospective supplier's quotation and split into three headings:-

1. Solar
2. EV charging

Timescales

- Completed tenders to be received by the companies Project Manager no later than 4pm, 1st July 2022
- Project installation ideally will need to be completed prior to 31st December 2022
