

No more pads,
leaks or worries.
I just free'd
myself with
INNOVO

Clinically proven.

The FDA-cleared, long-lasting solution to treating the root cause of bladder weakness.

Safe, wearable and truly non-invasive,
with over 2.5 million successful sessions.

Fits into your life.

innovo®

Your solution to bladder weakness.

- Over 2.5 million successful sessions.
- FDA cleared.
- Clinically proven and long lasting.
- Treats the root cause of leaks.
- The only wearable, truly non-invasive solution.
- Safe and easy to use.
- Comfortable.
- Perfect for treating incontinence at home – whether you're reading, watching TV or scrolling.
- Cheaper than a year's supply of pads — which can cost \$700!

It feels quite pleasant. I stand and watch television, and find it quite relaxing. The time passes quickly.

– Anna, 39

Treat your leaks with ease — right at home!

Stress urinary incontinence (SUI) can feel like a lonesome burden — but you're not alone.

1 in 3
women experience
bladder weakness.

There are many possible causes of SUI in women:

- Hormonal changes.
- Physical strain caused by childbirth.
- Menopause.
- High-intensity exercises weaken the pelvic floor muscles, resulting in an inability to control the bladder.

Something as normal as a sneeze or delightful as a laugh can lead to an embarrassing accident.

I urge anybody who is suffering with bladder weakness to try INNOVO because it transformed my life and can certainly transform theirs. Forget the pads, probes or any other solutions because they just cause more frustration and discomfort. I just believe in the product so much. INNOVO gave me my life back and was the best investment I ever made!"

– Kathy, 50

There are many roads to incontinence. Luckily, there's one proven solution: **INNOVO.**

Easy to use, comfortable to wear and FDA cleared, INNOVO is a **truly non-invasive** solution that helps you safely and effortlessly retrain your pelvic floor muscles through pain-free muscle stimulation — right from the comfort of your home!

80%

of users saw significant improvement after 4 weeks. ¹

87%

of users were defined as dry or near dry at the end of 3 months. ³

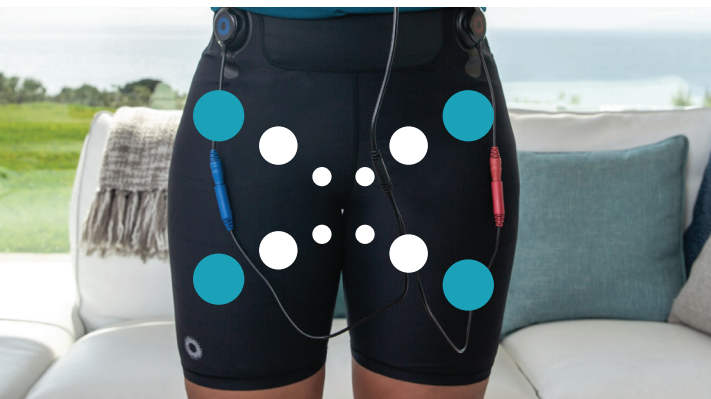

90%

of users would recommend INNOVO to others. ²

80%

of users found INNOVO significantly improved their quality of life. ²

How does it work?

1

INNOVO gently stimulates the pelvic floor muscles, delivering 180 perfect pelvic floor contractions over each 30-minute session.

2

INNOVO strengthens the pelvic floor muscles, helping them to relearn how to control bladder function over each session — all without you having to do anything!

3

As your pelvic floor muscles grow stronger, they're better able to stop bladder leaks.

Ready to try INNOVO?

Be who you want to be — **without leaks.**

Talk to your doctor today to see if INNOVO is right for you. To treat your SUI with INNOVO, you must first get a prescription from your doctor.
