

GALACTIC SPACE ADVENTURE

WRITTEN BY TOM WALSH AND ALEX FORD

***Professor PODS our travelling scientist Pro
Is looking for a brand new place to go...***

He looked up above at the stars up high,
So bright and shiny in the dark night's sky.
He'd seen them all before through his telescope,
Spending nights sky gazing, filled with hope.

"Eureka! Why did it take so long to figure out?"
The next journey's decided, without any doubt.
"We'll fly PODS airways way up to the stars"
"We'll see Venus, Jupiter, Saturn and Mars!"

In a hurry, he got up and ran down from his bed,
"Mrs Badger, let's go, it's adventure time!" he said.
"Haven't you ever wanted to go to space?"
"Let's go! It's a huge and mystical place!"

Mrs Badger sighed and sipped her tea again.
"Going to space will just cause mayhem!"
"Mrs B, Sa-turn that frown upside down,"
"Professor, you have always been the science class clown."

Mrs Badger said in between bites of her toast and honey,
"Professor we'll set foot on Mars before your jokes get funny"
But Professor PODS was the universe's best inventor,
And their magical POD could travel on any adventure.

So, to prepare for their latest galactic trip,
Their PODS transformed into a big red spaceship.
"What a magical form of transportation,
We may even see the great space station."
