

KOMBI ORANGE

The Kombi Orange boasts all the features of the Kombi Classic with added power and resources.

The new removable, heavy duty lithium battery (twice as powerful as standard) will give a long days marking session before having to be re-charged and includes a docking station for ease of use.

1.5 to 6" line marking widths.

25L paint tank capable of marking a full sized league/rugby field with one fill or two football/soccer fields.

5L on board wash tank. Flick of the tap and the line and pump is flushed in 10 to 15 seconds.

The adjustable wheeled knib means the Kombi Orange can also be used on a wide variety of sporting surfaces.

Fleet read out manifold with pressure control (control paint usage = cost effective)

Independent arms on the Wheeled Knib – ensures full contact with the ground giving crisp well defined lines.

Centre or side marking (side set up makes for easier circle marking)
