

# KOMBI RANGER

The Kombi Ranger is the ultimate ready for use line marking machine in the industry. The Ranger boasts all the features of the popular Kombi Orange, the main difference being that the tank has been replaced by a bay to host a jerry can.

Looking to control costs or ease of use, simply use any Fleet RFU product and spray immediately.

Designed for 10L and 12.5L Jerry Cans

1.5 to 6" line marking widths.

5L on board wash tank. Flick of the tap and the line and pump is flushed in 10 to 15 seconds.

Paint return system.

The adjustable wheeled knib means the Kombi Ranger can also be used on a wide variety of sporting surfaces.

Fleet read out manifold with pressure control (control paint usage = cost effective)

Independent arms on the Wheeled Knib – ensures full contact with the ground giving crisp well defined lines.

Centre or side marking (side set up makes for easier circle marking)

Fully adjustable handle bar/grips to suit the individual.
