

SYNTHETIC TURF COATING (STC)

STC Ready-for-use (RFU) is a flexible, water based paint suitable for marking on artificial sand filled, sand dressed, rubber crumb and water based (hockey type) synthetic surfaces and EDTM surfaces.

Supplied in 15L Buckets.

Rain resistant & hard wearing.

Our Synthetic Turf Coating (STC) RFU is available in a range of vibrant, bright colours including - White, yellow, red, blue and black.

Spray application ready-for-use, no dilution necessary.

Remarking of the lines on synthetics is recommended every 6 months, however feedback from a lot of customers is saying that the lines are still acceptable after 12 to 14 months.
