HIGHLIGHTS YOUR PERFORMANCE

SMALL RANGE, BIG PERFORMANCE.

IB Type 55-60-65-70

With double-convex and hollow grounded cutting edges, this scissor excels in its versatility, and can be used for slicing and smooth cutting. Right and left-handed versions available.

IB Type 55L-60L-65L

With double-convex and hollow grounded cutting edges, this scissor excels in its versatility, and can be used for slicing and smooth cutting. Right and left-handed versions available.

IH 550

A classic slim blade design with opposing handles made from high quality cobalt, great for everyday use. Form and function balance effortlessly, and enhance powerful cutting and make detailing easier, while the design ensures better handling for daily use. Available in metallic and black coating. Both in 5.5-inch version

IU 600 G / 5.8

A wide bamboo shaped-blade dedicated to provide effortless slide/glide cutting and texturizing on dry hair.

IH 550T

T 27

These 27/30-tooth texturizing shears are a supreme tool, allowing your imagination to flow, from creating texture and volume to blending hair in a seamless manner. A comfortable offset grip enhances ergonomics.

IH 600C

Featuring omnidirectional curved blades with opposing handles. These scissors are designed to enhance movement and texture, and help to direct the hair where you want it to go: perfect for haircuts with movement or curls! Comes in the 6-inch version.

T 30
