# FIRST BLOCKS

Beginner's building blocks  
for toddlers

GLEE NATURAL TOYS

# WELCOME TO THE WORLD OF FIRST BLOCKS

- First blocks are inspired from Montessori wooden blocks. They come in five different shapes and colors.
- It is made of smooth, natural wood and designed to help your child play safely & creatively
- It is recommended for children between 1 to 4 years who have't learnt to play with interlocking blocks
- Sturdy and durable, you can store these brightly colored blocks till your child is ready to reuse them to learn geometry!

Here are some amazing ideas to get your started

# # 1 Stack it up

GLEE NATURAL TOYS

- Make different structures by stacking up the First Blocks on a flat surface
- Try stacking the most blocks without knocking them over
- Knockdown game: Add a twist to stacking by asking your child to knock down the structures by throwing balls or other objects at them.

# # 2 Color Matching

GLEE NATURAL TOYS

- Teach your kid colors by holding up each block
- Try asking your child to pick a matching colored toy from a set of objects
- Go outdoors! Ask your child to fetch a matching colored flower from your garden.

# # 3 Small World Play

GLEE NATURAL TOYS

- Combine First Blocks with other toys to recreate the world around you. The triangle can become a mountain, the cube can prop up a tiny doll, endless possibilities!
- First blocks easily fit into your playtime e.g roll the cylinders to race with a toy car.

# # 4 Shape of you

- Teach your kid shapes & sizes by holding up each block
- Ask them to fetch a matching shape from around the house or from a set of objects.
- Spin Stories with a personality assigned to each shape

# # 5 Tallest Tower

GLEE NATURAL TOYS

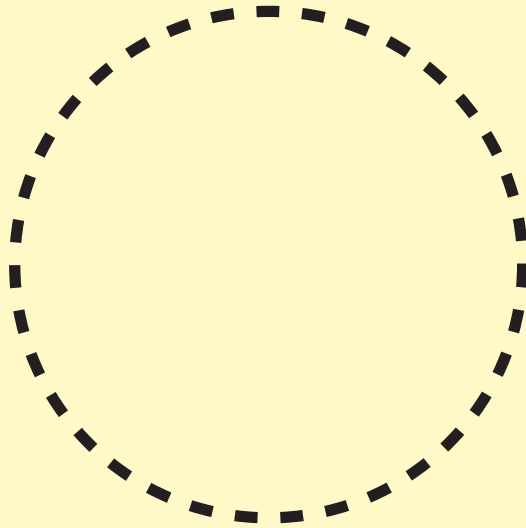

Let your child balance the shapes to make a tall tower, this helps build patience and fine motor skills

# # 6 Trace & Color

GLEE NATURAL TOYS

- Place the First Blocks on a surface and ask your child to trace the outline and color it with the correct shade
- On a sunny day, set the blocks up and ask your child to trace the shadow. Try painting a face on the weird shapes and you will have your own caricature characters.
- Apply paint to a surface and stamp on a paper. this helps your child to understand 2D-3D projections

# # 7 Baggy Play

GLEE NATURAL TOYS

- Put the blocks in a bag, feel and say the shape of block without looking at them
- Once they are familiar, you can even help build memory and association by asking the color of the shape they picked
- Draw the blocks in a sequence, asking them to repeat the sequence

GLEE NATURAL TOYS

# How it helps

- **Fine motor skills:** Children to use their small hand muscles and fingers to pick up and place the blocks. This helps them to develop the dexterity they need for everyday tasks like eating, dressing, and writing.

- **Hand-eye coordination:** Blocks help children to develop their hand-eye coordination. They need to be able to see where they are placing the objects and to judge how much force to use. This skill is essential for many activities, such as playing sports, playing musical instruments, and driving.

- **Problem-solving skills:** Children need to figure out how to do the activity, say, stack the blocks in a way that will create a stable tower. This requires them to think ahead and to experiment with different solutions.

- **Spatial awareness:** These activities help children understand the concepts of size, color, shape, and position of the blocks correctly. This skill is important for many activities, such as reading maps, following directions, and playing sports.

- **Creativity and imagination:** Encourages creativity and imagination. Children can use them to build different structures, such as towers, houses, and animals. They can also use them to create their own games and stories

“ Play is often talked about as if it were a relief from serious learning. But for children play is serious learning. Play is really the work of childhood. ”
