# WHO ARE WE ?

We are two childhood friends and when we became mothers to our lovely girls, we realised we didn't have any sustainable products for kids in the Indian market that inspire independent learning.

That moment of realisation led to the creation of Zizi.

# WHAT DO WE DO?

We create products inspired by the Montessori approach of learning. To do so, we use the services of skilled local artisans who bring life to our handcrafted products.

# WHAT IS MONTESSORI LEARNING?

Maria Montessori says - “The goal of early childhood education should be to activate the child’s own natural desire to learn”.

Montessori is a method of education that is based on self-directed activity, experiential learning and collaborative play.

# HOW ARE OUR PRODUCTS INCLINED TOWARDS MONTESSORI LEARNING?

Our products focus on various parameters of kids learning including active play, pretend play and sensory play. We also have an array of kids room furniture that create child-friendly and independent spaces for kids.
