## TIRE SHINE

MP-04

### READY TO USE - WATER BASED TIRE DRESSING

**Mothers® Automated Solutions™ Tire Shine** consists of a durable penetrating formula that effectively coats your tire's sidewall, providing superior protection and shine. Run down, dull and faded tires can make a vehicle look old, weathered and neglected, even with fancy rims. That's why you need to include tire dressing as an optional offering in your wash process. Our advanced micro-emulsion technology

provides your tires with a long lasting, "just dressed" finish that won't brown, sling, or run. Thanks to this innovative formula it is no longer necessary to suffer the tradeoff of durability and protection to keep a show quality shine. Provide this offering with confidence and ease as our formula will always shine and will reduce clogging in both nozzles and applicator points.

### ADVANTAGES

- ◇ Provides maximum shine and superior protection
- ◇ Advanced formula that won't brown, sling, or run
- ◇ Designed for online application and will reduce clogging of nozzles
- ◇ Compatible with Friction, Touch-Free or Self-Serve applications

### DIRECTIONS FOR USE:

- ◇ Tire Shine Applicator: 10-20 mL per side per vehicle
- ◇ Tire surfaces should be thoroughly cleaned before applying this product
- ◇ Fully saturate pads, then continue to inject product
- ◇ Adjust application until desired look is achieved
