GRAPHENE SURFACE PROTECTANT

MP-01

ULTRA CONCENTRATE - CERAMIC PROTECTANT

Mothers® Automated Solutions™ Graphene Surface Protectant incorporates our ceramic and graphene infused technology to provide a long-term, polymer nano shield that protects vehicles from harsh UV rays and any other elements that Mother Nature can throw your way. This unique formula durably bonds to your vehicle's surface to give you extreme protection while further enhancing the shine from

our **Ceramic Triple Coat** and **Hybrid Ceramic Wax**. A single application of this product can last up to 30 days and will give the user extraordinary water repellency so they can navigate in the rain more safely and with extreme confidence. Simply spray this product on, rinse it off and enjoy as you will see and feel this slick barrier that will lock the shine in and the weather out for weeks to come.

ADVANTAGES

- ◇ Protects against harsh elements
- ◇ Ultra-durable and super-hydrophobic
- ◇ Nano-Particles fill microscopic irregularities for ultimate smooth surface feel
- ◇ Compatible with Friction, Touch-Free or Self-Serve applications

DIRECTIONS FOR USE:

- ◇ K-Sticks: 6-12 mL at up to 500:1
- ◇ Spray-on while vehicle is still wet
- ◇ Rinse-off immediately
- ◇ Allow a few hours for protective barrier to reach full effect

ADDITIONAL INFORMATION:

Specific Gravity:	1.01	Available Colors:	White
pH of Concentrate:	6-8	Scent:	Mothers Signature Scent
Recommended Dilution:	Up to 500:1	Foam Profile:	Low
Reclaim Compatible:	Yes	Wash Types:	Friction, Touch-Free, Self-Serve
Does Not Contain:	Phosphates or APE/NPE/OPE Surfactants	Safety/Cautions:	Refer to SDS Sheet for all safety, hazard and first aid information.
