

A close-up, artistic photograph of a highly ornate brass chandelier. The image shows intricate scrollwork, curved arms, and a central glass globe, all rendered in a warm, golden-brown hue. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of depth and texture. The background is softly blurred, showing more of the chandelier's structure and a window with blinds in the distance.

Bronzetto *Maintenance Instructions*

Artisanal Craftsmanship and Finish Options

The products may show **small variations** and **imperfections** due to the **artisanal processing** technique involved in making each of our pieces.

Brass and Nikel finishes are intentionally natural and are therefore subject to a slight variation and **opacification** which gives them the **beauty and patina of time**.

If you wish to avoid these modifications, we can provide a **semishiny or matte varnishing**.

MAINTENANCE INSTRUCTIONS

Only a **moist fabric** has to be used to clean the brass parts.
