B

Advice

The products may show small variations and imperfections due to the craftsmanship of the work of the material and make unique each piece. The brass and nickel finishings are intentionally natural and so are subject to variations and opacifications that give the object beauty and patina of time. If you wish to avoid these modifications, it is possible to ask us for a semishiny or matte varnishing.

“Our products are
in fashion but they
don't follow trends”
