

**Bronzetto** *Collection Brass Brothers*

# B

**Brass Brothers & co.**<sup>®</sup> is a new young brand of lightings and furnishings, born inside Il Bronzetto<sup>®</sup> company, active in Florence since 1963. Brass Brothers&co.<sup>®</sup> is a project of ideas shared by a group of artisans, designers and creatives. The proposed products combine a renewed design and a new use of materials with the memory and the knowledges of last century. The result is a contemporary line of items with a vintage mood, attentive to the quality, in which craftsmanship and project coexist. We have always realized commissioned prototypes to meet the specific requirements of our customers. For this reason, we can say that the past and future melt in our expert hands. Brass Brothers & co.<sup>®</sup> manufacture is entirely made in Florence and its surroundings.

### **Advice**

The products may show small variations and imperfections due to the craftsmanship of the work of the material and make unique each piece. The brass and nikel finishings are intentionally natural and so are subject to variations and opacifications that give the object beauty and patina of time. If you wish to avoid these modifications, it is possible to ask us for a semishiny or matte varnishing.

“Our products are  
in fashion but they  
don't follow trends”

Simone Calcinai  
General Manager

# Brass Brothers

Raised in a workshop, frequent visitor of the Oltrano' alleys with its historical workshops of artisans, Simone Calcinai, owner of the company Il Bronzetto with his brother and cousin, is a profound connoisseur of techniques and materials. The curious and exuberant temperament, the explosive creativity has always led him to explore new boundaries and to found in 2014 Brass Brothers & Co., whose story is a family affair, with Antonio Calcinai, a craftsman, passing his knowledge and skills to his two sons, Simone and Pierfrancesco. Along comes their cousin Michelangelo, who assists Simone's creativity and Pierfrancesco's industrious craft. Together, they create a new way, studying the past and taking inspiration from and reworking old inputs, tying it all off with a modern taste. Brass Brothers & co. is our eye for the future, the youngest brand in the group, born from ideas shared with designers and creatives. The lines proposed reinvent and modernize objects of our childhood, giving rise to a collection with a vintage taste and industrial chic design. Modern and singular lighting fixtures, clean and elegant furnishings where the true Made in Italy spirit rises in the forge and passion of new ideas.

# Canneté

Introducing Canneté, the vintage-inspired lighting collection that captures the charm and elegance of the golden 30's. With its roots in the speakeasy culture, this collection is one of the most complete of Il Bronzetto, offering a range of table lamps, wireless table lamps, chandeliers, wall sconces, and floor lamps. Designed to transport you back in time, each piece exudes a unique sense of nostalgia and timeless sophistication.

The latest additions to the collection have been created by the young designer Angelo Mammoliti, whose fresh and innovative designs seamlessly blend with the vintage soul of the Canneté line. From intricate detailing to delicate curves and luxurious finishes, each piece has been crafted with the utmost attention to detail, ensuring that every Canneté lamp is a work of art that will stand the test of time.

# Wormhole

Freely inspired by a lamp model of the last century, the name "Wormhole" in astronomy is the space-time tunnel that connects one universe to another. Similarly, it represents the passage from the Bronzetto of the past to the more modern and contemporary Brass Brothers & Co.

Wormhole  
Wall Light

Item number  
BB\_WOR06a

The centerpiece of Brass Brothers & Co.'s Wormhole collection is a sleek and modern table lamp with a touch of vintage charm. Featuring a playful aluminum lampshade in a variety of bright colors and a dual lighting system, this lamp seamlessly complements any decor style - from classic to contemporary - making it an iconic piece of design.

At the heart of their design lies a mesmerizing lampshade that features a double system of lights, radiating brilliance into both the present and future. But that's not all. With Wormhole, you get the freedom to customize your lamp to your heart's content. From the vibrant colors of the aluminum lampshade to the luxurious marble bases in a range of stunning hues - from pure white Carrara to bold black Marquinia, and everything in between. And let's not forget the brass finishes of the stem, adding that extra touch of elegance to your unique creation. With Wormhole, the possibilities are endless, and the results are simply breathtaking.

I-Conic Table

Item number  
BB\_ICON04t

# Conic

The new product line that dictates the style of an interior design. The 50's seductiveness and charm, that marked the birth of modern design, inspire the clean geometrical lines of Iconic's tables and lighting solutions, an innovative, comfortable and essential style. Combinations of shapes and colors spark the imagination: antique pink side by side with the smooth Carrara Marble whites, brightened by the natural bras golden hues of the base. Turquoise, Sage Green, Lemon Yellow and many more RAL colors allow the customer any customization because that is the only way a decorative item can reflect the personality of its owner. The dark Black, Grey and Charcoal hues of the lamps remind us of that decade's essential minimalism, but sing a lighter more functional song, reflecting the aesthetic need to enrich a room. It's therefore the living-room the space that better hosts your creativity to interpret your own style and make it Iconic.

Designer: Piero Angelo Orecchioni

# Blossom

Born in a small magical village of Gallura in Sardinia immersed in uncontaminated nature, between rocks and ancient trees, an inexhaustible source of energy, Piero Angelo Orecchioni has always been attracted by seaside towns, where water is a vital symbol of continuous flow and contamination. The artisan workshops are for the architect and artist Piero Angelo Orecchioni as harbours in which it is pleasant to moor and get lost: the styles, the epochs are confused and time is suspended. The Blossom collection is the result of a beautiful journey inside Il Bronzetto: florilegium, anthology, flowering of materials, shapes and colors that gave life to a secret garden of lamps and furniture with a surprising and unexpected effect.

# Satellite

This line of lamps draws its name from the shape of a double cylinder of the shade, in which the two orbiting bodies revolve around each other and their interdependence arises their strength.

Born in 1983, Agnese Matteini, architect, graduated at the University of Florence, Masters in Fine Art (painting) in Bath, England, she deals with design, painting and graphic design. She collaborates with Il Bronzetto company since 2014, falling in love with the ability to convert into products her graphic ideas. The creative symbiosis is such that she falls in love with Michelangelo, one of the partners, of whom she becomes a life partner.

Designer: Agnese Matteini

Satellite  
Table Lamp

Item number  
BB\_SAT02s\_It

## Explore the universes of Satellite lamps

An innovative addition to the world of lighting design. Their double cylinder shape creates a mesmerizing effect, as if two celestial bodies were gravitating above each other. The adjustable joint of the lampshade allows for customization and directing of light, while the wide range of available colors ensures that each lamp can be tailored to fit any style.

Soundlight  
Chandelier

Item number  
BB\_SDH01m\_l\_sound

# Soundlight

Designer: Niccolò Tardelli

Today Soundlight is seen all around the web; on templates, websites, and stock designs.

Soundlight lamp is capable of transmitting, in addition to light, even music or any sound, through a dual integrated bluetooth speaker, activated by any device (bluetooth 4.2-apt-X). The bell shape allows, if mounted at a right height and distance, to have in one room several lamps of the same line that, as light showers, transmit each one different music. Soundlight has been created by Niccolò Tardelli, a young craftsman and designer, a boy from the historic district of the Florentine Oltrarno, who grew up among antique dealers, artisan workshops and artists' studios. He attends Il Bronzetto workshop very often during the evening to give shape to his ideas. At the time of the first idea, Niccolò lived in a studio and had the need to connect the light and the source of music to a single plug.

# Gea

Designer: Michelangelo Moroni

The line of lamps Gea propose forms and sinuous curves of mother earth, with a shade in the form of ellipses, which alone, without any joint, offers a clean and compact style. Michelangelo Moroni is both creator, designer and executor of these lamps. One of the three members of Il Bronzetto, Michelangelo is the technical mind of the team, the researcher of the group that translates the projects into prototypes and models, overcoming every challenge with innovative and tailor-made solutions. / Designer: Michelangelo Moroni

Gea 02

Item number  
BB\_GEA02p

Despite the scientific nature of its creator, these lamps reproduce the sinuous curves of the mother earth from which it takes its name.

# Armor

Experience the "Armor Lamp," a dazzling collaboration between the artistry of Il Bronzetto and the design finesse of Cecchi de Rossi. Crafted from brass and natural leather, these lamps offer a unique multi-material, multi-sensory experience. The vegetable-tanned leather preserves its natural beauty, while the adjustable design allows you to customize your lighting to suit your needs. This extraordinary partnership results in a product that combines art, luxury, and lighting versatility - the "Armor Lamp" is where tradition and innovation meet.

Designer: Tommaso Cecchi de Rossi
